Exotic Nurseries

RUTHERFORD NEW JERSEY

·Introduction·

In presenting this catalogue, we take this opportunity to thank our many patrons for their esteemed support, the further continuance of which we respectfully solicit.

¶ The prices herein are for fine, well grown plants.

¶ Every plant is guaranteed to name, and offered subject to being unsold upon receipt of order.

¶ We always have on hand specimens of all kinds, including *Orchids, Stove and Greenhouse Plants, Palms, Ferns, Bay Trees, etc.* State your wants and we will endeavor to furnish them.

¶ Visitors are always welcomed at our Nurseries, which may be reached via Erie Railroad from Jersey City, N. J., Rutherford being the first station out; or via electric cars, White Line, from Hoboken, N. J., D. L. & W. Railroad Depot.

¶ Express: Wells Fargo & Co. Telegraph: Western Union. Erie Railroad.

· Business Terms ·

Orders from new customers must be accompanied by remittance or satisfactory reference.

Remittances may be made by P. O. money order, Express money order, draft, check, or registered letter.

C. O. D. Orders must be accompanied by 50 per cent. of the amount of order.

All Claims must be made upon receipt of goods; we cannot entertain any claims made later.

All Goods travel at the purchaser's risk.

Packing will be charged at cost.

Yours very truly,

Julius Roehrs Co.

OUR NEW RANGE OF ORCHID HOUSES BUILT IN 1906

ORCHIDS

HERE is no doubt that Orchids produce the most beautiful and lasting flowers in all the vegetable kingdom. No private collection is complete without some specimens of this interesting family.

They are easily grown. The following instructions will enable any new beginner to make their culture a success. Most of them require a period of rest and a period of growth. As the plants show a tendency to grow, the supply of water and temperature should be increased. When the growth is almost formed, the plant should receive the maximum of water supply.

When the bulb is completed, the plant should gradually receive more sun and air, and less water, so as to ripen off the pseudo bulb and insure good flowering.

As soon as the buds begin to show, more water should be given. When the flowering season is over, the plant shows generally a tendency to grow, and potting should be done if necessary. Good potting material is required, such as fibrous peat and sphagnum moss, with plenty of drainage; overpotting should be avoided. They are all fond of pure fresh air and plenty of light. Some of our customers have been successful in growing them in a sunny window.

Owing to our large experience in orchid growing, any one contemplating building an orchid house will profit by communicating with us.

ORCHID DEPARTMENT

The Orchid range consists of twenty-eight houses. The stock is of great magnitude, most of the leading species of Cattleyas and Cypripediums being represented.

Our fine specimen Orchids, such as Cattleyas and Lælias, will be of special interest to Orchid enthusiasts. Prices and sizes we shall be glad to supply on application.

ACINETA. Belongs to the Peristeria family; succeeds well grown in a basket with a mixture of peat and moss, suspended from the roof of the East Indian or intermediate house.

A. Barkeri. Drooping spikes of large fleshy golden yellow flowers. Native of Mexico. Flowers in Summer. \$2.50.

A. Humboldtii. Spikes drooping, two feet long; chocolate colored flowers. Native of Colombia. Flowers in Spring. \$3.00.

ANGRÆCUM. This Orchid delights in plenty of heat and moisture. Most varieties succeed best in the East Indian house, grown in pots, three parts filled with crocks and charcoal, surfaced with sphagnum moss.

A. eburneum. Very strong growing species; sepals and petals light green color, cordate lip. Ivory white. Native of Madagascar. Flowers in Spring. Specimens, \$10.00.

A. Sanderianum. Fine white Orchid; drooping spike. Native of Comoro Islands. Flowers in Winter. \$5.00.

A. sesquipedale. A very robust grower; scarce. Strong plants, from \$15.00 to \$25.00.

ANGULOA. Cradle Orchid. These plants do well in the intermediate house, with plenty of drainage and abundance of water in their growing season.

A. Clowesii. Sepals and petals bright yellow, lip pure white. Native of Colombia. Flowers in Spring. \$2.50.

JULIUS ROEHRS COMPANY

Anguloa eburnea. Flowers pure white, lip spotted with pink (rare). Native of Colombia. Flowers in Spring. \$4.00.

A. Ruckeri. Native of Colombia. Flowers in Summer. Very dark yellow flowers, lip deep crimson. \$2.50.

ANSELLIA. One of the few African orchids. Succeeds well when grown in the East Indian house; requires plenty of crocks and abundance of water.

BURLINGTONIA. Very dwarf, compact habit; requires an abundance of water.

B. candida. Drooping racemes of pure white flowers, lip yellow; slightly fragrant. Native of Tropical America. Flowers in Spring. \$2.50.

B. decora. Of straggling habit; long wiry growth; upright spikes of delicate rose flowers, with a large white lip. Native of Brazil. Flowers in Winter. \$3.00.

CATTLEYA GASKELLIANA

A. africana. Drooping spikes of yellow flowers, dark brown spots. Native of Tropical Africa, Sierra Leone and Fernando Po. Flowers in Winter. \$4.00.

BRASSAVOLA. Tropical house orchid.

B. Digbyana. Sepals and petals pale green, lip white; specially fine for hybridizing purposes. Native of Brazil. Flowers in Spring. \$2.50 to \$3.00.

B. glauca. Sepals and petals pale green, lip white and pink streaks. Native of Mexico. Flowers in Spring. \$2.50.

BRASSIA. Spider Orchid. Grows well in cattleya house.

B. maculata. Racemes two feet long; handsome light green flowers. Native of West Indies (Jamaica). Flowers in Spring. \$2.50.

B. verrucosa. Pale green flower, white lip, spotted with green. Native of Guatemala. Flowers in Spring. \$4.00.

B. fragrans. Very fragrant spikes of pure white flowers, lip stained with yellow. Native of Brazil. Flowers in Spring. \$2.50.

CALANTHE. Deciduous terrestrial Orchid. Grows well in loam mixed with dry cow manure; requires heat and air and an abundance of water while growing.

C. oculata gigantea. \$5.00 to \$10.00.

C. rubra oculata. White, with crimson blotches. Native of East Indies (Moulmein). Flowers in Winter. \$2.00.

C. Sanderiana. Strong spikes, three feet long; sepals and petals rose. Native of East Africa. Flowers in Winter. \$2.00.

C. Veitchii. Spikes over two feet long. Garden hybrid, *rosea* × *vestita*. Flowers in Winter. \$1.00.

C. vestita. Native of East Indies (Moulmein). Flowers in Winter. \$1.00.

JULIUS ROEHRS COMPANY

CATTLEYA. The finest and most gaudy of all the Western Hemisphere Orchids. A few of the different species will give a succession of flowers the whole year 'round. They require a lot of moisture when growing.

C. Aclandiae. Dwarf habit; flowers olive green, heavily blotched with dark purple. Native of Brazil. Flowers in Summer. \$2.00 to \$4.00.

C. amethystoglossa. Tall growing; numerous light rose colored flowers, spotted with purple. Native of Brazil. Flowers in Spring. \$4.50.

C. Forbesii. Thin bulbed variety; flower of a pretty yellow green, with bright yellow lip. Native of Brazil. \$2.50.

C. Gaskelliana. Very fine Summer flowering Cattleya, which requires an abundance of water when in its growing season. Native of Venezuela. \$3.00 to \$10.00; specimens, \$20.00 to \$25.00.

C. gigas. No doubt the finest Cattleya grown, but several find it hard to flower. As Cattleya Dowiana, it must be grown closer to the glass and requires a long rest every year. Native of Colombia. Flowers in Summer. \$3.00 to \$5.00; specimens, \$10.00 to \$15.00.

CATTLEYA MOSSIAE—See page 6

C. bicolor. Long, thin bulbs; sepals and petals pale green, lip of a rich rose purple. Native of Brazil. Flowers in Summer. \$5.00.

C. Bowringiana. Slender growing; known as the Autumn flowering Cattleya Skinneri. Native of Honduras. Flowers in Autumn. \$3.00 to \$10.00.

C. citrina. Flowers have the form of a tulip; grows very well in an intermediate house. Native of Mexico. Flowers in Spring. \$2.00 to \$4.00.

C. crispa. Sepals and petals of a bluish white, crimson stain on lip. Native of Brazil. Flowers in Summer. \$4.00.

C. Dowiana. Very gorgeous flowers. Grows close to the glass; will succeed very well. Native of Costa Rica. Flowers in Summer. \$3.00 to \$4.00.

C. Eldorado. A collection Orchid. Native of Rio Negro. Flowers in Summer. \$3.00.

C. granulosa. Tall growing variety of yellowish green flowers, with a white and crimson lip. Native of Guatemala. Flowers in Summer. \$2.00 to \$3.00.

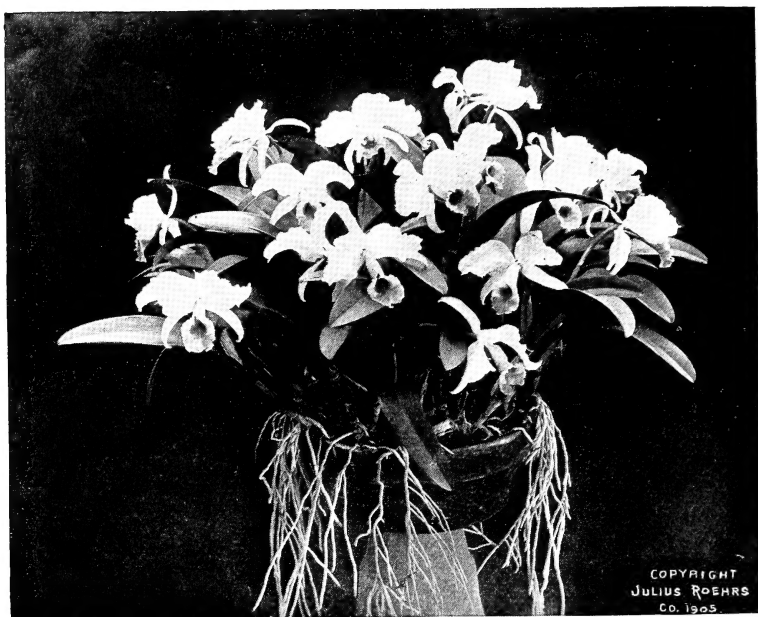

C. guttata. Tall, slender species; flowers of a greenish yellow, spotted crimson, lip white and purple; giving eight to twelve flowers on one spike. Native of Brazil. Flowers in Summer. \$2.00 to \$3.50.

C. guttata Leopoldi. Tall and very strong grower; distinct color; flower bronzy. Native of Bahia. Flowers in Summer. \$3.00 to \$5.00.

C. Harrisoniae. Tall, slender bulbs; beautiful rose color flower; lips yellow. An excellent Summer cut Orchid. Native of Rio Janeiro. Flowers in Summer. \$2.50 to \$5.00.

C. lobata. A very shy flowering variety, much like Cattleya crispa in growth; flowers of a pale lilac rose. Native of Brazil. Flowers in Spring. \$3.00.

RUTHERFORD, N. J.

SPECIMEN CATTLEYA TRIANÆ

Cattleya Loddigesii. Bulbs 15 in. long; flower very pale pink, with a dark lilac rose lip and yellow center. Native of Brazil. Flowers in Summer. \$2.50 to \$4.00.

C. luteola. Dwarf flowering varieties; a fine collection plant. Native of Brazil. \$5.00.

C. Mendelii. A very handsome flowering variety; sepals and petals white to light pink, large rich magenta lip. Native of Colombia. Flowers in Spring. \$3.00, \$5.00, \$10.00, \$15.00, \$25.00.

C. Mossiæ. Fine early Summer flowering variety; blossoms of various shades from pure white to rose purple. Native of Venezuela. Flowers in Spring. \$2.00, \$5.00, \$8.00, \$12.00, \$25.00.

C. Percivaliana. Flowers in early Winter, after Cattleya labiata. Similar to Mossiæ in growth; flowers small, but of a dark rich color and of a peculiar fragrance. Native of Venezuela. Flowers in Winter. \$2.50, \$3.00, \$6.00.

HOUSE OF CATTLEYA TRIANÆ

JULIUS ROEHRS COMPANY

Cattleya Schilleriana. Dwarf species; very dark foliage, deep rose mahogany colored flowers. Native of Brazil. Flowers in Summer. \$3.00.

C. Schofieldiana. Tall growing variety; flowers pale yellow spotted with crimson purple. Native of Brazil. Flowers in Summer. \$3.00 to \$5.00.

C. Schroederae. Very fine, light colored variety, with an elegant fragrance; flowers after Trianae. They produce most magnificent shades. Native of Colombia. Flowers in Spring. \$3.00 to \$10.00.

C. speciosissima. When the variety is doing well it will produce two crops of flowers a year. Sepals and petals of a soft flesh color, bright colored lip, with white and yellow markings. \$2.50 to \$5.00.

C. Trianae. A splendid Winter flower Cattleya, of which we have thousands in stock; several pure white ones have been flowered in our nurseries. Perhaps the most useful Cattleya for cut flower purposes. Native of Colombia. Flowers in Winter. \$3.00, \$5.00, \$8.00, \$10.00, \$25.00, \$35.00.

C. velutina. Tall, thin bulbed variety; pale orange colored, of beautiful fragrance; large. Native of Brazil. Flowers in Winter. \$7.50.

C. Warneri. Magnificent form of Cattleya, similar to *C. labiata* in growth. Native of Brazil. Flowers in Spring. \$3.00 to \$10.00.

Cattleya Walkeriana. A very dwarf species; when grown close to glass will flower freely; a beautiful rose colored flower, much darker lip with slight yellow tinge. Native of Brazil. Flowers in Spring. \$2.50 to \$5.00.

FLOWERS OF CATTLEYA TRIANÆ ALBA

JULIUS ROEHRS COMPANY

CHYSIS aurea. A bi-yearly flowering Orchid, which gives long yellow racemes of flowers; will grow in a cool house. Native of Venezuela. Flowers in Spring. \$2.00 to \$2.50.

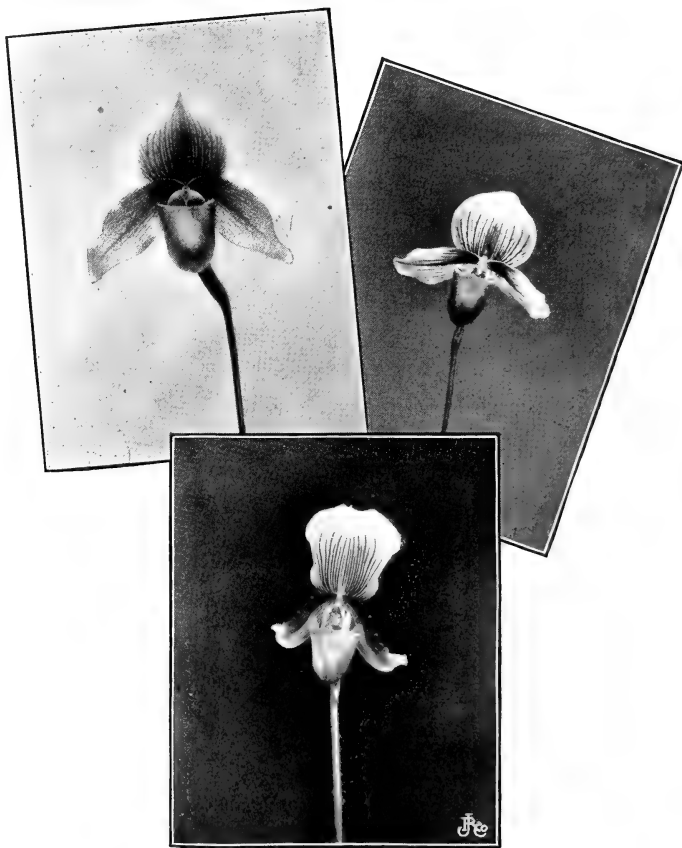

C. bractescens. Flowers white, with a yellow lip. Native of Peru. Flowers in Spring. \$2.50 to \$3.00.

CELOGYNE. This class of Orchids contains many varieties more or less beautiful.

C. barbata. White flowers, lip fringed. Native of Khasia Hills, India. Flowers in Winter. \$2.00.

C. Massangeana. A fine, free grower, giving beautiful long, drooping spikes of yellow flowers. No doubt one of the finest acquisitions for a new Orchid amateur, and, generally speaking, ought to be in every collection. Native of Assam. Flowers in Spring. Nice plants from \$3.00 to \$10.00.

C. speciosa. Grows very well in a temperate house. Sepals and petals of a fine green, brown lip, fringed. Native of Java. \$2.00.

CYPRIPEDIUM × CHAPMANI

CYPRIPEDIUM × ENSIGN

CYPRIPEDIUM CALLOSUM SANDERÆ

C. cristata. A fine, showy white flowering plant; well known. Native of India. Flowers in Winter. \$2.00 to \$20.00.

C. cristata alba. Pure white. \$3.00 to \$5.00.

C. Dayana. The necklace Orchid; gives long, pendulous spikes of light ochre yellow flowers, which succeeds well in the East Indian house. Native of North Borneo. Flowers in Spring. \$3.00 to \$6.00.

C. Meyeriana. Very scarce novelty. Large flowers, green sepals and petals and green and black lip. Native of Tropical Asia. \$7.50.

CYCNOCHES Chlorochilon. Swan Orchid. Native of Central America. Flowers in Summer. \$4.00.

CYMBIDIUM. Well known for its lasting qualities, either as cut flower or otherwise; succeeds exceedingly well in a compost of good loam, peat, sphagnum moss and charcoal.

C. eburneum. Flower pure white; fine fragrance; small plants. Native of Burmah. Flowers in the Spring. \$5.00.

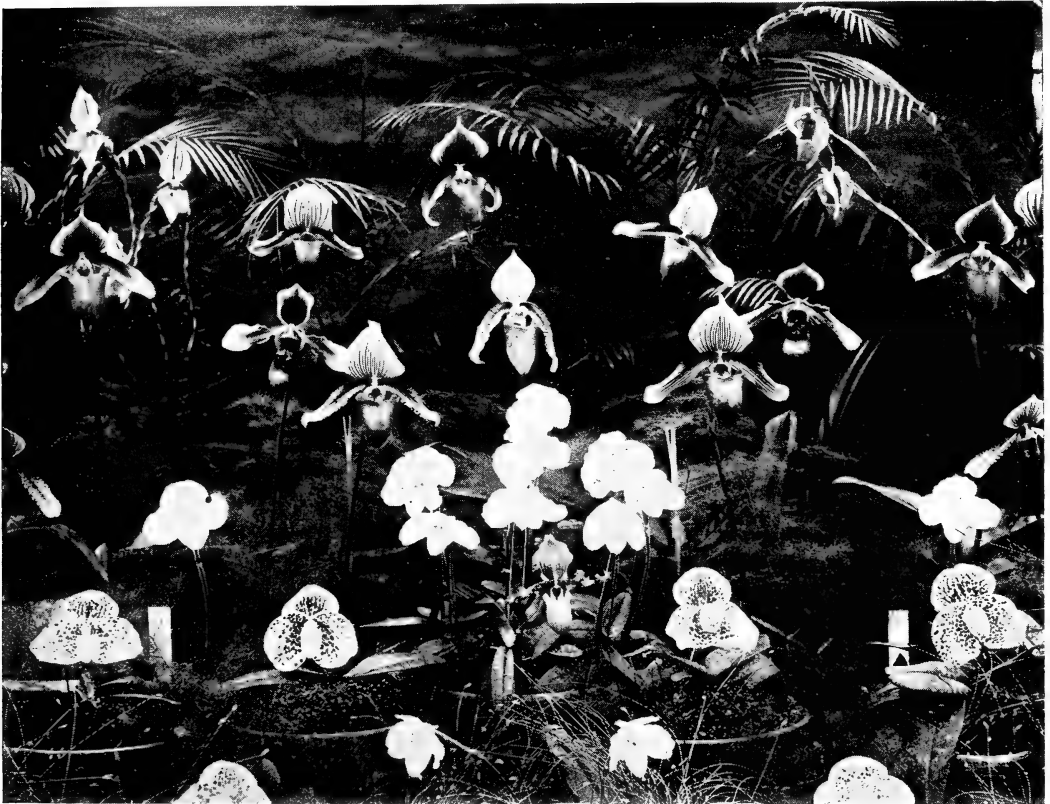

JULIUS ROEHRS COMPANY

Cymbidium elegans. Very scarce; produces racemes of pure, yellow flowers, with blood red spots on the lip. Native of India. Flowers in Autumn. From \$6.00.

C. giganteum. Good for Winter blooms; yellowish green, produced on long spikes. Native of North India. Price on application.

CYPRIPEDIUM. By far the most interesting, distinct and numerous of all the Orchid family, and are most easy of culture. They do well grown in pots, with good drainage, a compost of peat and moss, which must always be kept moist. Several varieties enjoy a cool temperature, while others require the tropical house.

COLLECTION OF CYPRIPEDIUMS

C. Lowianum. Makes splendid specimens, giving long, drooping racemes of yellow flowers covered with pretty maroon blotches on lip; grows well in the Cattleya houses and requires abundance of water, either when growing or in flower; elegantly grown. Native of India and Burmah. Flowers in Spring. 5-in. pots, \$3.00 to \$4.00; 7-in. pots, \$6.00 to \$7.50; 12-in. pots, \$10.00 to \$25.00.

C. tigrinum. Dwarf habit; flowers olive green, spotted with red, middle lobe marked with white and purple. Scarce. Native of East Indies. \$7.00.

C. Tracyanum. \$5.00 to \$15.00.

C. actæus, *Leeanum superbum* × *insigne* *Sanderæ*. Price on application.

C. Appletonianum. Habit of *Hookeræ*. \$2.50.

C. × Arthurianum, *insigne* × *Fairieanum*. From \$2.00.

C. × Ashburtoniæ, *barbatum* × *insigne*. Garden hybrid. Flowers in Autumn. From \$2.50.

C. barbatum. Native of Malay Peninsula. Flowers in Spring. From \$2.00.

C. bellatulum. Native of Siam. Flowers in Summer. \$2.00.

C. Boxallii. Native of Burmah. Flowers in Winter. \$2.00.

C. callosum. Native of Siam. Flowers in Spring. \$2.00.

JULIUS ROEHR'S COMPANY

Cypripedium giganteum. Price on application.

C. × Calypso, Spicerianum × Boxallii. \$4.00.

C. Charlesworthii. Native of Burmah; flowers in Autumn. \$2.00.

C. conchiferum, Selenipedium caricinum × Roezlii. Garden hybrid. Flowers in Spring. \$3.00.

C. Crossianum aureum, insigne × venustum pardinum. Garden hybrid. Price on application.

C. Haynaldianum. Native of the Philippines. Flowers in Summer. From \$3.00.

C. × Hera. \$4.00.

C. hirsutissimum. Native of Assam. Flowers in Spring. From \$3.00.

C. hybridum, Stonei × barbatum. Price on application.

C. insigne. Native of Assam. Flowers in Winter. \$1.50. Extra fine large specimens, \$3.00, \$5.00, \$8.00.

C. javanicum. Native of Java. Flowers in Spring. From \$1.50 to \$3.00.

DENDROBIUM FINDLAYANUM—See page 12

C. Curtisii. Native of Sandwich Islands. Flowers in Spring. \$2.00.

C. × Dauthierii. barbatum × callosum, \$5.00.

C. Dayanum. Native of Borneo. Flowers in Spring. \$4.00.

C. Druryi. Native of India. Flowers in Summer. \$2.50.

C. Enryale. Garden hybrid. From \$2.50.

C. exul. Native of Siam. Flowers in Summer. From \$2.50.

C. × Harrisianum, villosum × barbatum. Garden hybrid. Flowers in Autumn. From \$2.50 to \$3.50.

C. × Lathamianum, Spicerianum × villosum. Garden hybrid. Autumn. \$3.00.

C. Lawrenceanum. Native of Borneo. Flowers in Spring. \$2.00.

C. × Leeanum, insigne × Spicerianum Maulei. Garden hybrid. Flowers in Autumn. From \$2.00 to \$3.00.

C. longifolium. (Selenipedium). Native of New Granada. Flowers in Spring. From \$3.00.

C. Mastersianum. Native of Java. From \$3.00.

C. Niobe, Spiceria × Fairieanum. Price on application.

JULIUS ROEHRS COMPANY

Cypripedium nitens, villosum × insigne Maulei. Garden hybrid. Flowers in Winter. From \$2.50.

C. × nitidissimum, caudatum Warscewiczii × conchiferum. Garden hybrid. \$3.00.

C. niveum. Flowers satiny white, dotted with purple at base of upper sepal and petals. Native of Tambellan Islands. \$5.00.

C. × oenanthum, Harrisianum × insigne Maulei. \$3.00.

C. purpuratum. Native of Malayan Archipelago. Flowers in Winter. From \$3.00.

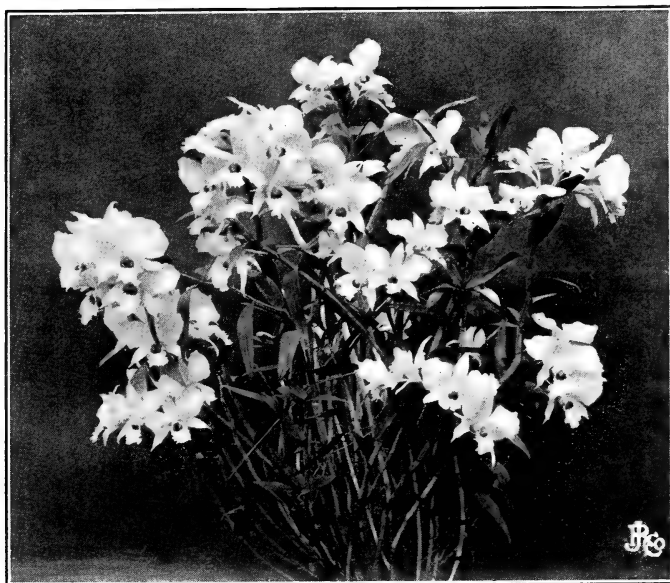

C. × regale. insigne Maulei × purpuratum. \$4.00.

C. radiosum, Lawrencei × Spiceria. Price on application.

DENDROBIUM. This very extensive family is, perhaps, the most showy of all Orchids. Most of them require plenty of heat and moisture during the growing season; careful watering is needed until the growths are well advanced. Most of them do well potted in good peat and sphagnum moss.

D. alba sanguineum. A very dwarf form of *D. Dalhousieanum*; flowers creamy white. Native of moulmein. Flowers in Spring. \$3.00.

D. Bensoniæ. A lovely species; deciduous; flowers, sepals and petals pure white, orange lip, with dark spots at base. Native of Burmah. Flowers in June. \$2.50.

DENDROBIUM JAMESIANUM—See page 12

C. Rothschildianum. Native of Borneo. Flowers in Summer. From \$7.50 to \$10.00.

C. Sanderianum. Native of Borneo. Flowers in Summer. From \$10.00 to \$15.00.

C. Schlimii. Native of Colombia. Flowers in Winter. From \$3.00.

C. × Sedeni. Schlimii × longifolium. Garden hybrid. Flowers in Winter. From \$2.00 to \$5.00.

C. Spicerianum. Native of Assam. Flowers in Autumn. From \$2.00.

C. Stonei. From \$2.50.

C. tonsum. Native of Mountains of Sumatra. Flowers in Autumn. \$4.00.

C. venustum. Native of Sylhet, India. Flowers in Autumn. \$2.50.

C. Victoria Mariæ. Native of Sumatra. Flowers in Summer. Habit of Chamberlainum. \$4.00.

C. villosum. Native of Moulmein. Flowers in Winter. \$2.00.

C. Uehleinianum, Curtisii × Spicerianum. \$5.00.

D. bigibbum. Native of North Australia. Flowers in Autumn. \$2.50.

D. Brymerianum. Handsome variety; beautiful yellow flowers, with large fringe 'round lip. Native of Burmah. Flowers in June. \$2.50, \$3.50.

D. crassinode. Very neat, knotted jointed variety; sepals and petals pure white, tipped purple, lip white and orange, yellow blotch and purple tip. Native of Arracan Mountains. Flowers in Spring. \$2.50.

D. Dalhousieanum. Very tall, bulbed variety; flowers creamy white and rose, pale yellow lip with dark blotches. Native of India. Flowers in Spring. \$4.00 to \$7.50.

D. densiflorum. Rich, bright yellow flowers, formed in clusters. Native of Nepal. Flowers in Spring. \$2.50.

D. Devonianum. Long, slender bulb variety; flowers cream color, shaded with purple. Native of Khasia Hills. Flower in Spring. \$3.00.

JULIUS ROEHRS COMPANY

Dendrobium Falconerii. Long, slender knotted bulbs; sepals and petals white, tipped with purple, lip orange with purple spots. Native of Northern India. Flowers in Spring. \$4.00.

D. Findlayanum. A very pretty and desirable species; light pink flowers. Found in the Siam Hills. Flowers in Winter. \$3.00 to \$5.00.

D. formosum giganteum. Produces large pure white flowers, with yellow throat. This variety delights in plenty of heat and moisture. Native of Moulmein and Burmah. Flowers in Autumn. \$2.00, \$4.00, \$6.00.

D. Leechianum × **nobilius.** Garden hybrid. Price on application.

D. moschatum. Produces long racemes of buff, rose colored flowers, yellow lip. Native of India. Flowers in Summer. \$2.00.

D. nobile. Very old and popular free flowering variety. Native of India. Flowers in Spring. \$2.50 to \$3.00.

D. nobile Cooksoni. Native of India. Flowers in Winter. Price on application.

D. nobile nobilins. Flowers in Winter. Price on application.

DENDROBIUM PHALÆNOPSIS SCHRÖDERIANUM—See front cover

D. heterocarpum aureum. Native of Burmah. Flowers in Spring. \$5.00.

D. infundibulum. Resembles *D. formosum*; bulbs slender and flowers smaller; requires cooler treatment. Native of Burmah. Flowers in Summer. \$2.00.

D. Jamesianum. Native of Moulmein. Flowers in Spring. \$3.00.

D. macrophyllum Dayanum. Strong growing variety; sepals and petals of a greenish yellow, lip yellow, with purple spots. Native of Borneo. Flowers in Summer. \$3.00.

D. nobile Sanderianum. Native of India. Flowers in Winter. Price on application.

D. Parishii. Dwarf bulbous variety, with dark rose colored flowers, lip pale pink. Native of Moulmein. Flowers in Spring. \$2.00.

D. Phalaenopsis Schroederiana. The finest for cutting purposes, giving spikes two feet long, with 20 to 24 flowers each, to 2½ inches across, of various pink shades. This variety delights in an abundance of heat and moisture, but will not succeed if kept in a wet, sodden state. Native of New Guinea. Flowers in Autumn. \$2.00, \$3.00, \$5.00. Shown in colors on front cover.

Co. 1905

DENBROBIUM WARDIANUM

Dendrobium Wardianum. Deciduous species; bulbs 2 to 3 feet long; sepals and petals pure white, tipped with purple, lip orange, with two dark spots. One of the finest Dendrobiums grown. Native of Upper Burmah. Flowers in Spring. Fine plants, \$3.50 to \$7.50.

D. Wardianum album. Very scarce. Small plants. From \$10.00.

DENDROCHILUM. Small bulbs; evergreen; leaves 6 inches long.

D. Cobbianum. Same as *D. glumaceum*, but flowers of a yellow-sulphur. Native of Philippines. Flowers in Winter. \$5.00.

D. glumaceum. Very slender flower spikes, white and sweet scented. \$3.00.

EPIDENDRUM. A very large family of Orchids; nice collection plants. Some of these are most beautiful and fine for cutting.

E. ciliare. Long spikes of greenish white, spider like flowers. Fragrant. Native of West Indies. Flowers in Winter. \$2.00 to \$4.00.

RUTHERFORD, N. J.

JULIUS ROEHRS COMPANY

Epidendrum Endresio Wallisii, Wallisii × Endresii. Price on application.

E. Godseffianum. Native of Tropical America. Flowers in Spring. \$2.00.

E. prismatocarpum. Long racemes of creamy yellow flowers, purple blotches. Native of Chiriqui. Flowers in Summer. \$5.00.

E. radicans, syn. **rhizophorum**. Very tall, erect, leafy stems, with a cluster of bright orange scarlet flowers. Native of Guatemala. Flowers in Spring. \$5.00.

L. anceps Hillii. Sepals and petals white, lip blushed rose pink, throat yellow, crimson markings. Native of Mexico. Flowers in Winter. \$5.00.

L. anceps Hollidayana. Flowers white, throat veined with crimson, crimson blotch on the lip. Native of Mexico. Winter. \$5.00.

L. anceps Sanderiana. Beautiful form; pure white sepals and petals, rose purple blotch on the front lobe of the lip. Native of Mexico. Flowers in Winter. \$5.00.

LÆLIA PURPURATA

E. Randii. Native of Venezuela. Flowers in Spring. \$2.50.

E. vitellinum. Erect spikes, with clusters of bright vermilion orange flowers. Native of Mexico. Flowers in Autumn. \$2.00.

ERIOPSIS rutidobulbon. Sepals and petals yellow orange. Native of Colombia. Flowers irregular. \$3.50, \$5.00.

HOULETIA odoratissima. Pale red flowers, lip white, stained with yellow. Native of Colombia, \$3.00.

LÆLIA. This family of Orchids resembles the Cattleyas very much, only they differ by 8 pollen masses. They are very handsome and produce fine spikes of flowers. Many succeed well in the Cattleya house, while others require good syringing and to be grown close to the glass.

L. albida. Long racemes of pure white flowers. Native of Mexico. Flowers in Winter. \$1.50 to \$2.50.

L. anceps. Long spikes of rose lilac flowers, lip deep purple. Does well in leaf soil. Native of Mexico. Flowers in Winter. \$3.00 to \$10.00.

L. anceps, var. **alba**. Pure white. Native of Mexico. Flowers in Winter. Price on application.

L. anceps Schroederae. Flowers have an intense crimson maroon lip, very dark sepals and petals, dark tips to petals. Native of Mexico. Flowers in Winter. \$5.00.

L. autumnalis. Long spikes of rose purple flowers, side lobes white. Native of Mexico. Flowers in Winter. \$2.50 to \$4.00.

L. Boothiana. Synonym of Cattleya lobata. Native of Brazil. Flowers in Spring. \$3.00.

L. cinnabarina. Long spikes of reddish orange blossoms. Native of Brazil. Flowers in Spring. \$3.00.

L. Dayana. Dwarf growing species; rose color, lip purple and white. Native of Brazil. Flowers in Autumn. \$2.50.

L. elegans. Fine sweet scented variety. From \$15.00.

L. flava. Clear yellow flowers. Native of Brazil. Flowers in Winter. \$2.00.

L. grandis tenebrosa. Tall growing species; fawn colored flowers. Native of Bahia. Flowers in Summer. \$4.00 to \$10.00.

L. harpophylla. Slender bulbs; one foot high; orange vermilion flowers. Native of Brazil. Flowers in Spring. \$2.50.

JULIUS ROEHRS COMPANY

Lælia Jongheana. Very distinct from all other varieties. Native of Brazil. Flowers in February and March. \$2.50.

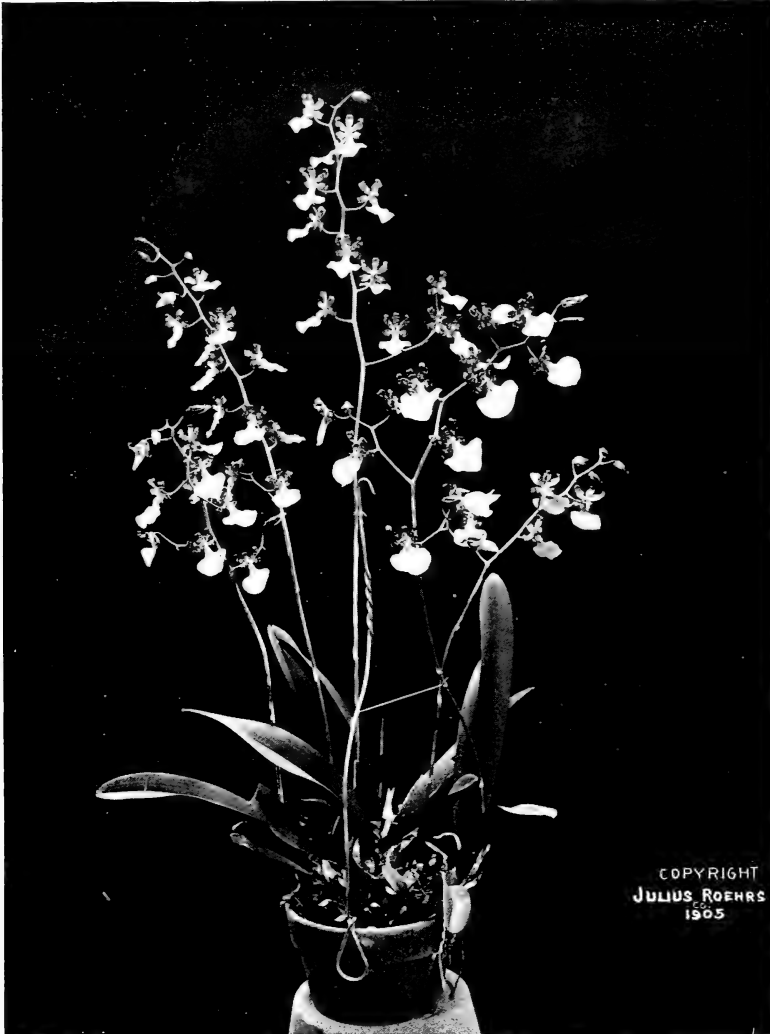

L. Perrinii. Light rose colored flowers. Native of Brazil. Flowers in late Summer. \$2.50 to \$3.00.

L. præstans. Similar to L. Dayana. Native of Brazil. Flowers in Autumn. \$2.50 to \$3.00.

L. purpurata Roehrsiana. Pure white form. Price and particulars on application.

LEPTOTES bicolor. Dwarf growing Orchid, recurved fleshy leaf; flowers white streaked with purple. Native of Brazil. Flowers in Spring. \$3.00.

LYCASTE. A very popular Orchid for intermediate house.

COPYRIGHT
JULIUS ROEHRS
1905

ONCIDIUM SPLENDIDUM—See page 17

L. pumila. Dwarf, compact habit. Native of Brazil. Flowers in Autumn. \$2.50 to \$3.00.

L. purpurata. Very noble-looking Orchid when well grown into specimens; extra fine showy flowers, white sepals and petals, rich deep crimson to purple. Of these we have the finest stock in the country. Native of Brazil. Flowers in May and June. From \$2.50 to \$30.00.

RUTHERFORD, N. J.

L. lanipes. Flowers large white, shaded with green, lip serrated. Native of Ecuador. Flowers in Winter. \$3.00.

L. lasioglossa. Scarce; beautiful dark wine variety. Native of Guatemala. Flowers in Winter. \$7.00 to \$10.00.

L. Skinneri. Very free flowering. Native of Guatemala. Flowers in Winter. \$2.00 to \$3.00.

JULIUS ROEHRS COMPANY

MILTONIA candida. Pale yellow flowers, spotted with brown, white lip. Native of Brazil. Flowers in Autumn. \$2.50 to \$3.00.

M. Clowesii. Resembling candida very much. Flowers large, sepals and petals chestnut brown, barred and tipped yellow. Native of Brazil. Flowers in Autumn. \$2.50 to \$3.50.

M. Moreliana. Large flowers, dark purple. Native of Brazil. Flowers in Summer. \$3.00.

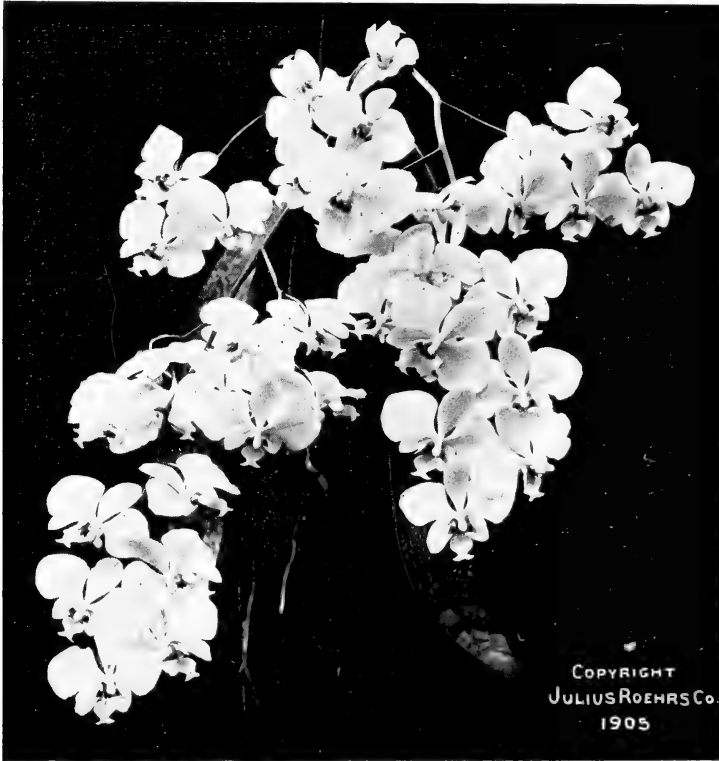

M. Roezlii. Very beautiful white Orchid; requires good heat and moisture. \$2.50 to \$5.00.

O. crispum. Fine plants. Native of Colombia. Flowers in Spring. \$2.50.

O. Insleayi. Very like grande, only scarce, and smaller flower with more yellow. Native of Mexico. Flowers in Winter. \$2.50 to \$4.00.

O. Pescatorei. A most lovely coolhouse Orchid, which produces branched spikes of beautiful white flowers. Native of New Granada. Flowers in Winter. \$3.00, \$4.00, \$5.50.

O. Uro-Skinneri. Native of Guatemala. Flowers in Spring. \$3.00 to \$5.00.

PHALÆNOPSIS SCHILLERIANA—See page 18

M. Roezlii alba. Native of Brazil. Flowers in Winter. \$3.00 to \$5.00.

M. spectabilis. Grows well in Cattleya house; flowers cream white, lip purple. Native of Brazil. Flowers in Summer. \$2.00.

M. vexillaria. A beautiful, tender flowering Orchid. Native of Colombia. Flowers in Summer. Plants from \$2.50.

ODONTOGLOSSUM citrosimum. Long, pendulous spikes of large round flowers; sepals and petals white or tinted flesh color; lip rose, with a yellow red spotted crest. Native of Mexico. Flowers in Summer. From \$2.50, \$3.50, \$6.00.

O. grande. Known as the Baby Orchid. Flowers large and of a very showy yellow, intermingled chocolate color; succeeds well in temperature of 55 degrees. Native of Guatemala. Flowers in Autumn. \$2.00, \$3.00, \$5.00.

ONCIDIUM. One of the oldest and showiest Orchids grown. The greater number produce long, branching flower spikes of richly colored blossoms. Most of these succeed well in the intermediate house.

O. ampliatum majus. Bright yellow flowers, blotched with brown. Native of Colombia. Flowers in Spring. \$3.50.

O. Cavendishianum. Gives branching spikes of a greenish yellow, brown spotted flowers. Native of Guatemala. Flowers in Winter. \$2.50 to \$4.00.

O. concolor. Very beautiful, large, pure yellow flowers. Native of Organ Mountains (Brazil). Flowers in Spring. \$2.50.

O. crispum. Bright chestnut brown flowers. Native of Brazil. Flowers in Autumn. \$2.00 to \$3.00.

JULIUS ROEHRS COMPANY

- Oncidium curtum.** Cinnamon brown flowers, barred with yellow. Native of Organ Mountains. Flowers in Spring. \$2.00 to \$3.00.
- O. excavatum.** Strong growing species; flowers rich yellow, blotched with brown. Native of Peru. Flowers in Summer. \$2.50.
- O. flexuosum.** Small, bright yellow flowers. Native of Brazil. Flowers in Summer. \$2.00 to \$2.50.
- O. Forbesii.** Yellow and brown flowers. Native of Brazil. Flowers in Autumn. \$2.00 to \$3.50.
- O. Gardneri.** Dwarf growing variety. Native of Organ Mountains. Flowers in Summer. \$3.00 to \$4.00.
- O. Harrisonianum.** Dwarf growing variety; small, bright yellow, blotched with red. Native of Brazil. Flowers in Summer. \$2.00 to \$3.00.

- O. sarcoides.** Splendid species, giving large, handsome flowers of bright yellow. Native of Brazil. Flowers in Spring. \$2.50 to \$5.00.
- O. sphacelatum.** Long, branching spikes of bright yellow and brown flowers. Native of Guatemala. Flowers in Spring. \$2.00.
- O. splendidum.** Stout, leathery leaves; long spikes of beautiful yellow and rich brown flowers. Succeeds well in the Cattleya house. Native of Guatemala and Mexico. Flowers in Winter. Specimens only, \$4.00, \$6.00 to \$10.00.
- O. tigrinum.** Sweet scented variety, similar to O. splendidum. Native of Mexico. Flowers in Winter. \$2.50 to \$3.00.
- O. varicosum.** Bright yellow flowers; grows well in leaf soil. Native of Brazil. Flowers in October and November. \$1.50 to \$4.00.

PHAIUS × MARTHÆ AND × COOKSONIÆ

- O. hastatum.** Sepals and petals narrow, yellowish green, heavily barred with chocolate brown. Native of Mexico. \$4.00 to \$5.00.
- O. incurvum.** Long spikes of drooping red purple flowers, white lip. Native of Mexico. Flowers in Autumn. \$2.00 to \$3.00.
- O. Kramerianum.** Bright yellow flower, spotted with brown, resembling a butterfly. Native of Colombia. Flowers irregular. \$2.00 to \$2.50.
- O. leucochillum.** Fine flowerer. Native of Mexico. Flowers irregular. \$2.50 to \$5.00.
- O. Marshallianum.** Yellow flowers, spotted with chestnut brown. Native of Brazil. Flowers in Summer. \$2.50 to \$3.00.
- O. ornithorhynchum.** Drooping panicles of small, purplish colored flowers. Native of Mexico. Flowers in Autumn. \$2.00 to \$2.50.
- O. phymatochilum.** Yellowish green flowers, spotted with red. Native of Brazil. Flowers in Spring. \$2.00.
- O. pulvinatum.** Very long branching spikes of bright yellow and crimson. Native of Brazil. Flowers in Summer. \$2.00.

- O. varicosum Rogersii.** Much larger flower. Native of Brazil. Flowers in October and November. \$4.00 to \$6.00.
- PHAIUS × Cooksoniæ,** grandifolius × Humboldtii. Sepals and petals a nankeen green, lip broadly undulate bright yellow, marked with purple brown, clear rose in front. Garden hybrid. \$10.00.
- P. grandifolius.** One of the oldest Orchids in cultivation; sepals and petals reddish brown, but variable, white on the outside, labellum white at the apex. Native of China. Flowers in Spring. \$2.50 to \$3.50.
- P. × Marthæ,** Blumei × tuberculosus. Sepals and petals pale buff, lip large, densely spotted with golden brown, front portion white, shaded golden brown, suffused with rose. Garden hybrid. \$10.00.
- P. × Norman,** Blumei var. Sanderiana × tuberculosus. Flowers large, sepals and petals usually yellowish, shaded and lined with copper yellow, pink lips, reddish purple, veined with bright yellow basally, front lobe rose, blotched with purple, whitish at the tip. Garden hybrid. \$10.00.

JULIUS ROEHRS COMPANY

Phaius Sanderiana. \$5.00.

P. Wallichii. Lip white, yellow disc lined with red, passing to orange yellow. Native of Tropical India. Flowers in Spring. \$3.00.

PILUMNA fragrans. Pure white, beautifully scented. Native of Colombia. Flowers in Winter. \$1.50, \$3.00, \$4.00.

PHALÆNOPSIS. Queen of the Orchids and known as the Moth Orchid. Flowers are very showy and produced in large numbers; several varieties have beautiful variegated foliage. They also require very careful attention. They succeed well suspended from the roof of a tropical Orchid house.

P. amabilis, syn. aphrodite. Large, fleshy green leaves; produces 20 or more lovely white flowers on long spikes. Native of the Philippines. Flowers in Autumn. From \$5.00, \$7.50, to \$10.00, \$15.00.

P. amabilis Rimestadtiana. The true variety as introduced by Mr. Rimestadt in 1900. This plant is scarce; however, we are glad to be able to offer this beautiful variety, which surpasses by far the common amabilis, giving larger flowers of the purest white, with a bright yellow throat. Native of Borneo. Flowers in Spring. Plants from \$10.00 to \$50.00.

P. Schilleriana. Beautiful mottled leaves, 18 inches long; throws out long branching spikes, with 50 or more lovely light mauve colored flowers, which have great lasting qualities. Native of Philippines. Flowers in Winter. From \$5.00, \$8.00, \$12.00, \$18.00.

P. Stuartiana. Small plants. \$3.00 to \$5.00.

We also received the finest importation of Phalænopsis which ever reached this country. All plants are established in baskets to suit all amateurs; showing fine healthy roots.

HOUSE OF PHALÆNOPSIS AMABILIS, SCHILLERIANA, STUARTIANA, ETC.

JULIUS ROEHRS COMPANY

SOBRALIA macrantha. Bamboo-like stems, showing flower on the extremity of these, resembling somewhat a Cattleya in shape, but much smaller flower. Native of Mexico. Flowers from May to July. \$5.00 to \$7.50.

S. xantholeuca. Flowers sulphur yellow, lip frilled and of deeper yellow; scarce. Native of Central America. Flowers May to July. \$12.00 to \$20.00.

VANDA Amesiana. Native of Dutch East Indies. \$5.00, \$7.50.

V. cœrulea. Splendid blue Orchid, giving fine spikes. Of these we have a house full, all elegant, healthy grown plants, either in pots or on fern stems. Native of N. India (Assam and Burmah). Flowers in Winter. Large plants, 15 to 18 leaves, from \$5.00; specimens, from \$10.00.

V. cristata. Price on application.

V. × Kimballiana. White and pale purple flowers. Native of Burmah. Flowers in Summer. \$2.50 to \$4.00.

V. × Miss Joaquim. New. (teres × Hookeriana). Flowers irregular. \$5.00 to \$10.00.

V. Parishii. Native of Burmah. Flowers in Summer. \$3.00.

V. Sanderiana. A very beautiful variety. The finest of all the family. \$20.00 to \$40.00.

V. tricolor. Native of Java. Flowers irregular. \$7.50.

V. var. suavis. Native of Java. Flowers irregular. \$7.50, \$10.00.

VANILLA planifolia. Climbing habit; requires good heat and moisture; showy flowers, greenish white; good stove climbers; fruit 6 inches long. Native of Mexico. Flowers in Winter. \$3.00.

ZYGOPETALUM Mackayi. Very strong grower; requires copious watering. Thrives well in cool temperature, producing strong spikes of large, yellowish green and purple flowers, lip blue. Native of Tropical America. Flowers in Winter. All sizes from \$1.50 to \$6.00.

Z. crinitum. Native of Brazil. Flowers in Winter. Fine plants, 6-in. pots, \$1.50.

For new beginners we make up cheap collections, our selection :

12 Cattleyas in 12 varieties..... \$18.00 to \$24.00

12 Cypripediums in 12 varieties..... 15.00 to 20.00

Special List of Rare Species, Choice Novelties and Large Flowering Hybrids

Imported from Japan in the following sizes:

6 ft. wide x 8 ft. high, 15 pieces to a bale.

10 ft. wide x 8 ft. high, 10 pieces to a bale.

8 ft. wide x 8 ft. high, 12 pieces to a bale.

12 ft. wide x 8 ft. high, 10 pieces to a bale.

Price on application. Special sizes made to order.

We also can supply the above sizes dyed green, which is done by a special process, to order only; therefore orders for this class of goods must be put in 8 to 10 months ahead of time. Sold by the bale only. Price on application.

ARRIVAL AT OUR NURSERIES OF AN IMPORTATION OF ORCHIDS

JULIUS ROEHRS COMPANY

STOVE AND GREENHOUSE PLANTS

Our collection is most extensive. For decorating Palm Houses, Conservatories and for table work they are unsurpassed. As we make a specialty of growing large quantities for our New York trade, we are able to furnish plants in all sizes for making up collections. If you are interested in large specimens for making an immediate effect, we beg to announce that we occasionally issue special lists which will be sent on application.

For new beginners we offer small collections.

- 6 Foliage plants for..... \$6.00
- 12 Foliage plants for..... 10.00
- 6 Flowering plants for..... 7.50
- 12 Flowering plants for..... 15.00

ACACIA armata (paradoxa). Kangaroo Thorn. Fine Spring free flowering greenhouse plant. All sizes. \$1.00 to \$5.00.

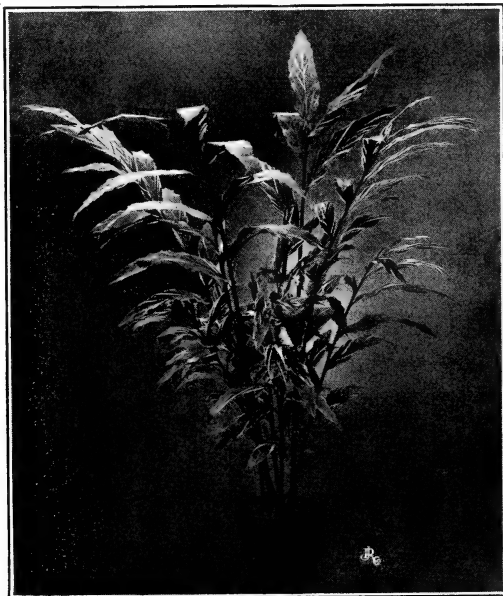

A. Drummondii. A lemon yellow variety, generally grown for Easter flowering. All sizes. \$2.50 to \$7.50.

Our selection:

- 6 Ferns for..... \$5.00
- 12 Ferns for..... 9.00
- 6 Palms for..... 6.00 to \$9.00
- 12 Palms for..... 10.00 to 15.00

AGLAONEMA commutatum. A fine foliage stove plant. Small plants, \$1.00 to \$2.00.

A. pictum. A very dwarf grower; foliage very dark green, variegated white. Sumatra. Plants from \$1.00 to \$2.00.

ALPINIA SANDERÆ—See page 22

A. grandis. Flowers between February and May. Specimens standards only. \$10.00 to \$15.00.

A. juniperina. A most desirable variety. Specimens only. \$7.50 to \$10.00.

A. longifolia. A tall, handsome shrub; golden yellow specimen bushes. \$7.50 to \$10.00.

A. pubescens. A hairy flowering variety, racemes slender. Splendid grower. Strong plants. \$5.00 to \$10.00.

ACALYPHA Macfeeana. Foliage red, marked with crimson. Plants from \$1.00 to \$2.50.

A. Sanderii. (hispida). Grown principally for its long red amaranthus-like spikes of flowers. Foliage green plants, from \$1.00 to \$3.00.

ALLAMANDA cathartica. Stove climber, giving small obovate thin golden yellow flowers, funnel shaped. Plants from \$1.50 to \$7.50

A. grandiflora. Also a fine stove climber giving wiry thin stems of yellow flowers, the finest of Allamandas. Plants from \$1.50 to \$10.00.

A. Hendersoni. A very tall, free flowering variety, giving the largest flowers. Plants from \$1.00 to \$7.50.

A. Wardleana. Very similar to Hendersoni. Yellow orange colored. Plants from \$1.50 to \$7.50.

A. Williamsii. Another fine stove climber; flowers in continuous clusters, much smaller than A. Hendersoni. Plants from \$1.50 to \$5.00.

JULIUS ROEHRS COMPANY

ALOCASIA argyrea. One of the grandest of all Alocasias. The leaves are very large, shield shaped, and of the darkest green covered with an exquisite silvery green, giving them an indescribable charm; they are lanceolate in shape; the midrib is prominent and handsome. Habit is bold and noble. \$5.00 to \$10.00.

A. Kerchoveana. A large leaved variety, strong grower; variegated plants. From \$2.00 to \$5.00.

A. Lowii. A narrow foliaged rose variety with distinct silvery bands under surface, rich purple. Plants from \$1.50 to \$5.00.

ANTHURIUM Andreanum. Tropical plant grown for its showy spathes. \$7.50 to \$25.00.

We have a very fine collection of seedlings of the above, crossed with *Anthurium ferrierense*, *ornata*, etc., which show some very fine flowers. \$7.50 to \$25.00.

A. crystallinum. A showy foliaged variety, deep velvety green, with midrib crystal white. Plants from \$1.50 to \$20.00.

A. crystallinum folius variegatus. Similar to above, but finer variegated; very rare. Price on application.

A. bogotense. A very fine foliage plant. From \$3.50 to \$10.00.

ANTHURIUM CRYSTALLINUM FOLIUS VARIEGATUS

A. macrorrhiza. A very broad leaved variety, blotched green and white; splendid addition to the collection. Plants from \$1.00 to \$4.00.

A. metallica. Another very fine distinct variety. Plants \$2.00 to \$5.00.

A. Sanderiana. A deep glossy green with metallic reflection variety, deeply notched margin. Plants from \$1.50 to \$5.00.

A. spectabile. Plants from \$1.00 to \$2.00.

ALPINIA Sanderæ. Of recent introduction. Very fine stove plants. Tropical plants, white and green, medium sized grower. Plants \$1.50 to \$10.00.

AMOMUM vitellinum. A remarkable plant on account of its striking resemblance to a Maranta. From \$1.00 to \$2.50.

ANANASSA sativa fol. variegatus. A very striking foliage plant, beautifully variegated pink on light green. Plants from \$5.00 to \$25.00.

A. glauca. A fine narrow foliage plant from Colombia. From \$2.50 to \$7.50.

A. grande. Another foliage variety, olive green, white nerves. Plants from \$1.50 to \$10.00.

A. Scherzerianum. A Central American variety grown for the flowers which are usually red. \$1.50 to \$5.00.

A. Scherzerianum var. atro rubra. A very dark blood red variety. \$5.00.

A. Scherzerianum grandiflorum. Splendid pink. \$5.00.

A. Scherzerianum Mme. Dalliere. Another distinct red. \$5.00.

A. Scherzerianum Rothschildianum. Scarlet mottled white. \$7.50.

A. Veitchii. A tall, robust species, grows similar to the Alocasia; leaves 3 to 4 feet long, green. Strong plants. \$5.00 to \$25.00.

A. Waroqueanum. A very vigorous, velvety green variety, with rib of a prominent lighter color; very striking. Plants from \$5.00 to \$10.00.

JULIUS ROEHRS COMPANY

ANTHURIUM SEEDLINGS.

A. Andreanum var. Julius Roehrs. A very fine large red variety, undulated; one of the largest flowers. Plants from \$7.50 to \$25.00.

A. Andreanum var. Mrs. Spencer. A fine pink variety. Strong plants. \$2.50 to \$10.00.

A. Andreanum var. Silver Cloud. A beautiful white variety. Strong plants. \$3.00 to \$15.00.

A. Andreanum var. Souvenir de Gand. A fine orange red variety. Strong plants. From \$2.00 to \$10.00.

A. Andreanum var. Triomphe de l'Exposition. A splendid bright blood red variety. Plants from \$3.00 to \$10.00.

A. Guilfoylei. Also a new New Hebrides variety; white margined; stems spotted, erect. Strong plants from \$1.50 to \$5.00.

A. Kerchoviana. Slender stemmed. Fine elegant habit. Strong plants from \$2.50 to \$5.00.

A. monstrosa. Leaves drooping, white margined. Plants from \$1.00 to \$4.00.

A. Veitchii. A very narrow variety, shining green above and red beneath. From \$2.00 to \$5.00.

A. Veitchii gracillima. A still narrower variety, but with a white rib. \$2.50 to \$5.00.

ARAUCARIA excelsa. A very fine decorative greenhouse evergreen, commonly called the Norfolk Island Pine. Plants from 75c. to \$5.00.

HOUSE SHOWING COLLECTION OF STOVE AND GREENHOUSE PLANTS

ÆSCHYNANTHUS zebrinus. Native of Borneo, Java. A fine variegated foliage plant. \$1.00 to \$3.00.

ARALIA aurea. A fine decorative variety. \$1.00 to \$3.00.

A. Chabrierii. Variegated stove plant; fine grower; a very graceful and handsome variety. \$1.00 to \$2.50.

A. elegantissima. A New Hebrides variety; petioles mottled with white. \$1.50 to \$3.00.

A. flicifolia. Stem erect, purplish, white spotted; very deeply notched. Plants from \$1.00 to \$5.00.

RUTHERFORD, N. J.

A. glauca. Resembling in growth and habit A. excelsa, but of a bluish color. Plants from \$2.50 to \$7.50.

A. robusta. A very strong growing large variety, with deep green heavy foliage. A splendid house plant. \$1.50 to \$6.00.

ARDISIA crenulata. A small shrub bearing clusters of red berries. Very popular. 4 in. to 5 in., \$1.50 to \$2.00; 6 in. to 7 in., \$3.00 to \$7.50.

ARISTOLOCHIA elegans. A very fine decorative greenhouse climber. A dark brown striped flower in the shape of a pipe. Very interesting plants. From \$2.50 to \$5.00.

ASPARAGUS myriocladus. A very fine thick growing variety; dwarf habit; deep bluish green. \$2.00 to \$5.00.

JULIUS ROEHRS COMPANY

ASPARAGUS Crawshawii. A novelty for cut purposes, it cannot be excelled. 75c.

A. decumbens. Very fine. \$1.00 to \$2.50.

A. Duchesnei. A very distinct and fine African variety. Stem strong, and pendulant. From Belgian Congo. From \$2.50 each.

A. plumosus. A very tall climbing variety. 50c. to \$1.50.

B. glaucophyllum scandens. A very fine basket variety; giving large trusses of pink flowers. Plants from 50c.

B. manicata aurea. A large-leaved, variegated deep green, spotted yellow. Plants in 4-in. pot, 50c., 75c.

B. smaragdina. Green velvety foliage, 50c., 75c.

CAMELLIA—See page 26

A. Sprengeri. Long drooping branches of a fine glossy green. 50c. to \$1.50. Grown in baskets for suspending in conservatories, etc., \$5.00 to \$7.50.

ASPIDISTRA lurida. Very useful house plant. 6-in., 7-in., 8-in. pots, \$1.50 to \$2.00.

A. lurida fol. var. 6-in., 7-in., 8-in. pots, \$2.00 to \$3.00.

BEGONIA Gregoriana. A fine decorative variety. From 50c. to \$1.00.

B. Otto Foster. Variegated velvety plants, 50c., 75c.

B. Gloire De Lorraine. A fine, free flowering variety for Christmas; in Spring, 2½ to 3 in., 20c., 25c.

B. Turnford Hall. As above; white, 20c., 25c.

From October to December we can furnish strong, well grown plants, 5 in., at \$1.00 to \$1.50; 6 in., \$2.00; 7 in., \$2.50 to \$3.00; 12-in. baskets, at \$5.00 to \$7.50 each. For immediate effect.

JULIUS ROEHRS COMPANY

BEGONIA. Winter flowering varieties, such as Mrs. Heal, Julius, Winter Cheer. Strong bulbs, pot-grown. \$1.00 each.

BEGONIA Rex. In fine varieties as follows:

- var. Bella
- " Cleopatra
- " Clementine
- " Madame Siebold
- " Mrs. H. G. Moore
- " President Carnot
- " Sander's Masterpiece
- " Penelope
- " The Maharajah
- " The Marquis
- " The Commodore
- " Miss H. M. Gould
- " Her Majesty
- " Lenox
- " Nero
- " Louis Closson
- " Silver King
- " Prince Troubezko
- " Princess Charles of Denmark
- " The Rajah—a beautiful variegated fleshy Begonia.
- " Our Queen

BEGONIA Rex in 12 distinct varieties, 4 in.-5 in., \$9.00 to \$12.00.

BERTOLONIA marmorata. Beautiful stove foliage plant; very hairy foliage, streaked with white along the veins; flowers purple. 4 in., 5 in., \$3.50 to \$5.00.

B. Mirandei. Spotted red on lower leaves, white upper ones. Plants 3½ to 4 in., \$2.50 to \$4.00.

B. velutina. Another very fine variety; velvety foliage; brownish color. 3 in., \$2.50 to \$3.00.

B. Van Houtteana. Leaves of a very fine, delicate pink; very hairy. Plants, 3 in.-4 in., \$3.00 to \$4.00.

BIGNONIA argyrea violescens. Strong, rapid growing stove climbers giving purple flowers. Foliage small, purple in growing, but variegated later. Plants, 4 in., \$1.50 to \$2.50.

B. venustum. A very showy climber, dark striped and brown foliage. 5 in.-6 in., \$1.50 to \$3.00.

BILLBERGIA Morelli (Bromeliacæ). A very showy variety; flowers red sepals and purple limb petals. 5 in.-6 in., \$2.50 to \$5.00.

BOUGAINVILLEA glabra Sanderiana. A very showy greenhouse flowering plant, much deeper colored than the common Glabra. 5 in.-6 in., \$1.50 to \$2.50.

BOUVARDIAS. Humboldtii corymbifolia and other varieties; fine field grown stock in Fall. Per 100, \$25.00 to \$30.00.

CALADIUMS. Well known for their decorative foliage.

C. Assunjay. Large transparent leaves, suffused with deep rose.

C. B. S. Williams. Deep crimson with green margin.

C. Gaspard Crayer. Deep crimson center, green margin.

C. Golden Queen. Pale golden yellow.

C. Henry Lovatt. Bright rose center, crimson veins.

C. Lillie Burke. Pinkish white, bright rose center.

HOUSE OF DRACÆNA FRAGRANS, LINDENI; MASSANGEANA—See page 28

JULIUS ROEHRS COMPANY

Caladium Madame Schmidt. Bright red center, green border, spotted rose and white.

C. Mrs. H. Veitch. Dark red, self colored.

C. Oriflamme. Red with green margin.

C. Princess Royale. Golden yellow leaves with crimson center.

C. Silver Cloud. Silver white with green spots.

C. Triomphe de Comte. Bright red on olive green ground. These are the very best.

12 varieties. Collection for \$25.00.

Other varieties, such as Albans, Alfred Maine, Antoine Joacquin, Elsa, Faust, Isio Meyerbeer, Miss Schmitt, Rocador, Splendidum, Vittata, Vivio fina, Silene, etc., from 50c.

Dormant bulbs are obtainable from October until March.

We claim to have the finest collection in the United States.

CLERODENDRON Balfourii. Another fine greenhouse climber, giving a profusion of white flowers with a red corolla. Plants from \$1.00 to \$6.00.

C. fallax. A compact grower, giving a splendid head of bright red flowers. From 50c. to \$2.50.

CLIVIA (Imantophyllum) miniata. A very fine greenhouse flowering plant, flowers bright scarlet with yellow throat. Strong flowering plants, from \$1.00 to \$2.00.

COCCOLOBA pubescens. Tropical tree. A very large-leaved plant, interesting, from the Antilles. 5 in.-6 in., \$5.00 to \$15.00.

COSTUS Zebrinus. A tropical foliage plant, velvet foliage. Plants from \$1.50 to \$5.00.

CROTON. Fine stove plants; always grown for their foliage, which varies very much. We have several new varieties, which will prove beautiful additions.

DIEFFENBACHIA IMPERIALIS

CAMELLIA. We always have on hand a fine collection of these beautiful greenhouse flowering plants, in the best commercial varieties. From \$2.00 to \$75.00 each.

CAMPYLOBOTRYS Ghiesbreghtii × **Hoffmannia Higginsia**). A very dark, velvety, green stove plant, under part deep purple. Strong plants, 50c. to 75c.

C. Ghiesbreghtii variegata. Same form and habit as above with mottled leaves. Plants from 75c. to \$1.00.

CISSUS discolor. A very handsomely variegated stove climber, velvety green and mottled silvery white, reddish under leaf. Strong plants, 75c. to \$5.00.

CITRUS Kumquat, sinensis otaheite, Ponderosa.—American Wonder. Strong plants, from \$1.50 to \$10.00.

C. Souvenir de Louis Draps. Leaves medium round size, pink, mixed with red; making a beautiful effect with the yellow. 5 in., \$15.00.

C. Bruxelliensis. A rough-edged variety, undulated, green washed and marbled red, pink and yellow. 5 in., \$15.00.

C. Souvenir de Laeken. This one differs from all other varieties; medium sized foliage, light green spotted white and cream color, giving a beautiful effect. 5 in., \$15.00.

The set of 3 new varieties for \$40.00; ready in September.

C. Turnford Hall. Another English novelty, but not very largely disseminated so far; beautiful dark green, with large yellow blotches. 5 in., \$2.50.

The following list contains such fine varieties as are generally grown for show purposes, stock being limited and few are seen:

JULIUS ROEHRS COMPANY

Croton Aigburth Gem. Leaves narrow, interrupted crimson.

C. Aighburthiensis. Leaves narrow, ivory white.

C. Anatominese. Narrow leaves, variegated green and yellow.

C. Chelsonii. Very narrow, twisted, bright red.

C. Davisii. Short leaf, green and white.

C. Elysian. Leaves narrow, twisted, lemon yellow shaded with rose.

C. Etna. Small leaves, fiery red; bushy grown.

C. Flambeau. Narrow, brilliant red leaves.

C. Golden Gem. Leaves narrow, yellow.

C. Golden Ring. Narrow, golden yellow, twisted.

C. Lucy. Narrow, twisted, olive green ground, blotched with crimson.

C. Mortefontaineensis. Compact, trilobed, yellow and crimson leaves.

C. Mrs. Dorman. Narrow, yellow and crimson.

C. Prince of Wales. Leaves bright orange, twisted and of medium width.

C. Princess of Wales. Leaves long and narrow, of creamy white color.

C. Reidii. Leaves large, creamy pink, a dark rose in color.

C. Thomsonii. Leaves trilobed, center yellow bordered with green.

C. Warrenii. Leaves long, narrow and twisted, spotted yellow and red.

Fine plants, 5 in., \$2.50.

This collection may be had in the Fall, 6 in., for \$35.00.

The following varieties are common and may be obtained in all sizes from 3 in. to 14 in. pots, 25c. to \$15.00 each:

CROTON *Andreas*, *angustifolius*, *B. Comte*, *Earl of Derby*, *Evansianus*, *imitabilis*, *Laingii*, *majestica*, *Sunshine*, *Undulatus*, *Queen Victoria*, etc.

CRYPTANTHUS *zonatus zebrinus*. A Brazilian Bromeliad, foliage marked with transverse bands of brownish white. From \$1.50 to \$3.00.

CURCULIGO *recurvata fol. var.* A variegated foliage plant. Has the habit of a palm, with a curious floral structure. 5 in.-7 in., \$2.00.

CURMERIA *picturata*. A very showy stove foliage plant, dark green spotted white; same treatment as Dieffenbachia. 4 in.-5 in., \$1.50 to \$2.00.

C. Wallissi. A Colombian variegated plant; leaves blotched yellowish green. From \$1.50 to \$2.50.

CYANOPHYLLUM *magnificum*. One of the best and most striking of all foliage plants. From \$2.00 to \$15.00.

CYRTODEIRA *fulgida*. A very dark, metallic green foliage plant. From \$1.25 to \$3.00.

C. cupreata. A creeping basket plant, copper colored foliage, flowers scarlet. From \$1.50 to \$2.50.

C. metallica. From \$1.50 to \$3.50.

CYPERUS *alternifolius variegatus*. Fine aquaria and jardiniere plants. All the foliage is practically white. From \$1.50 to \$3.00.

RUTHERFORD, N. J.

DICHORISANDRA *undata*. A tropical plant, handsomely variegated, giving rich blue flowers. From \$2.50 to \$5.00.

D. reginae. From \$2.50 to \$5.00.

DIEFFENBACHIA *Leonii*. A very fine showy variety. Plants from \$1.00 to \$5.00.

D. Baraquiniana. A fine variegated plant, midrib almost all white, blade scattered white spots. Strong plants from \$1.00 to \$3.00.

D. Baumannii. Leaves large bright green, blotched sprinkled with white. Plants from \$1.00 to \$5.00.

FICUS PANDURATA—See page 28

D. Bausei. Blade complete yellowish green, with green spotted margins, scattered white spots. Strong plants from \$1.00 to \$3.00.

D. Fournierii. Dwarf variety. \$1.00 to \$3.00.

D. imperialis. One of the largest leaved varieties. \$1.00 to \$7.50.

D. Jenmani. A bright glossy green variety, with a few white spots; dwarf. Plants from \$1.00 to \$3.00.

D. magnifica. Large dark green foliage, blotched with white along the veins. Plants from \$1.00 to \$3.00.

D. memoria Corsii. Deep green and lustrous, blotched white. \$1.00 to \$2.00.

D. picta. Fine green, spotted between the veins. \$1.00 to \$3.00.

IXORA DUFFII—See page 30

Dieffenbachia rex. Oblong foliage, dark green with white angular blotches. \$1.00 to \$3.00.

D. Seguine picta. Leaves green with confluent stripes and spots. Plants from \$1.00 to \$5.00.

We will furnish 12 strong plants in 6 varieties. Our selection for \$18.00.

DIPLADENIA rosea. A very fine stove and greenhouse climber, giving a profusion of beautiful pink flowers. Strong plants from \$2.50 to \$5.00.

D. regina. Another fine climber. Strong plants from \$2.50 to \$5.00.

DRACÆNA Alexandra. Fine variety very few in cultivation, erect foliage, green and white. 5 in., only \$5.00.

D. amabilis. Medium width, green and pinkish white. 5 in.-6 in., \$1.00 to \$3.00.

D. Baptistii. Long broad foliage cream red and orange. 5 in.-6 in., \$1.00 to \$3.00.

D. Cantleyi. A fine, smooth, green mottled variety; scarce. 5 in., \$2.50.

D. Doucetti. A narrow-leaved variety, stiff, white, variegated. 5 in., \$1.00 to \$5.00.

D. Exquisite. Medium width, color creamy pink to white. 5 in., \$1.00.

D. fragrans. Green and shiny. 5 in.-6 in., \$1.00 to \$2.00.

D. fragrans var. Lindeni. Same form, but variegated. 6 in., \$2.00.

D. Godseffiana. Leathery foliage, pea green colored, striped dark green. 5 in.-6 in., 50c. to \$1.00.

D. Goldieana. Bushy grower, leaves spotted creamy yellow. 4 in.-6 in., \$1.00 to \$2.00.

D. imperialis. Also a very finely colored variety. 5 in.-6 in., \$1.00 to \$2.00.

D. Lord Wolseley. Brilliant red pink variety. 5 in.-6 in., \$1.00 to \$2.00.

D. Massangeana. A green variety, striped yellow in center. 5 in.-6 in., \$1.00 to \$2.00.

D. Mayi. Novelty; dwarf grower, with bright crimson leaves. 5 in., \$2.00.

D. Offerii. Another narrow leaved variety; dark green edged red crimson. 5 in., \$3.00 to \$4.00.

D. Pere Charon. Another very fine variety; crimson foliage. 5 in., \$2.00.

D. Professor Peynaert. A broad-leaved variety, distinct, bright red foliage, grown dark green. 5 in.-6 in., \$1.00 to \$2.00.

D. Queen Victoria. Very scarce variety of a beautiful golden yellow. 6 in., \$10.00.

D. Sanderii. Very distinct variety, with narrow bright green leaves striped white. 3 in.-4 in., 25c. to 30c.

D. terminalis. A common variety, but very useful for decorating when well colored. 5 in.-6 in., \$1.00 to \$1.50.

We will select 12 strong plants in 6 varieties. Our selection for \$18.00 and \$24.00.

ERANTHEMUM sanguineum. A tropical foliage plant. Plants, \$1.50 to \$3.00.

ERICA. Very fine, cool greenhouse plants. We always have some on hand, but on account of the limited demand for them our stock is never large. \$1.50 to \$5.00.

EUCHARIS amazonica (The Amazon Lily). A warm house bulbous plant; flowers white, fragrant. Per bulb, \$1.00.

EUPHORBIA jacquiniflora. A nice flowering plant; attractive either as cut or put up in pans. 25c. to \$2.50.

FICUS Canoni. A very dark purple variety. Also called Artocarpus Canoni. 5 in.-6 in., \$1.50 to \$3.00.

F. Chauvierii. Almost as strong a grower as var. elastica, but broader foliage and lighter in color. 5 in.-6 in., \$2.50 to \$3.00.

F. elastica. 5 in.-6 in., 75c. to \$1.50.

F. elastica fol. variegata. A variegated form (yellow) of above. 5 in.-6 in., \$1.50 to \$3.00.

F. pandurata. A splendid addition to the collection; stiff grower; durable; splendid house plant. 5 in.-6 in., \$1.50 to \$2.00.

F. Parcelli. Light green, mottled white, 5 in.-6 in., \$1.50 to \$2.50.

F. radicans. A very small-leaved variety; elegant climbing plant. 5 in., 50c.

F. radicans variegata. Same as var. radicans, but variegated creamy yellow. 5 in., 75c.

F. repens. Another climbing variety, for conservatory work. 5 in., 75c.

F. repens variegata. A variegated form. 7 in. pans, \$3.00.

F. rubiginosa. (Baby Rubber). A very dwarf variety, resembling F. elastica. 5 in.-6 in., \$1.00 to \$1.50.

JULIUS ROEHRS COMPANY

FITTONIA argyryneura. Light green variety; striped white. 5 in., 50c. to 75c.

F. Pearcei. Light green, striped pink. 5 in., 50c. to 75c.

GARDENIA florida. 4 in.-5 in., 50c. to 75c.

G. Fortunei. 4 in.-5 in., 75c. to \$1.00.

GENISTA Veitchii fragrans. A fine greenhouse Easter flowering plant. 4 in.-5 in., 50c. to 75c.

GLOXINIA. For Easter flowering in Spring. Fine bulbs in ten distinct varieties, per doz., \$4.00; 100, \$15.00.

GLORIOSA superba. (The Climbing Lily). Flowers open yellow, changing yellow, red and scarlet. Per bulb, \$2.00.

HOFFMANNIA regalis. Fleshy foliage, dark rich green, purple red beneath. From \$1.00.

H. refulgens. Dull green surface, under part wine red. From \$1.25.

HOEMANTHUS Lindenii. A beautiful flowering plant; bulbous plants; flowers in the form of an umbel, with 100 or more bright red flowers. Good bulbs, \$3.00 to \$5.00.

HYDRANGEA hortensis rosea. A splendid variety with light green foliage, free flowering, beautiful rich pink color. From 25c. to \$3.00.

H. Souvenir de Claire. Another fine variety; black stem, very dwarf, free flowering; best adapted as an Easter pot plant. Flower of a delicate pink. From 40c. to \$5.00.

HELICONIA ILLUSTRIS RUBRICAULIS

HELICONIA aureo-striata. A foliage stove plant, variegated; stems striped with yellow and green; leaves almost golden yellow. 5 in.-8 in., \$2.00 to \$7.50.

H. Edwardus rex. A novelty broad-leaved variety of a beautiful dark red foliage. 5 in.-8 in., \$4.00 to \$15.00.

H. illustriis. Similar in growth to both former varieties, but rib marked with pink. 5 in.-8 in., \$2.00 to \$7.50.

H. illustriis rubricaulis. Similar to H. illustriis, but with much more red. petiole bright vermilion. 5 in.-8 in., \$3.00 to \$12.00.

H. Sanderiana. Another yellow variegated form, but entirely distinctive from aureo-striata, as this variety is spotted with large blotches. 5 in.-8 in., \$2.00 to \$12.00.

HOYA carnosa (The Wax Plant). A greenhouse climber. Asiatic plant. Flowers grayish white, resembling wax. 5 in.-6 in., \$1.00 to \$2.00.

IPOMCEA Horsfalliae. A very fine stove climber. Flowers beautiful dark rich pink; cluster 15 to 25 flowers; size of a dipladenia. 5 in.-7 in., \$2.50 to \$7.50.

IXORA. Stove flowering shrub; not grown very extensively in this country, same as all following varieties:

I. amabilis. This variety, one of the best, gives large clusters of flowers, pinkish white suffused with orange. 4 in.-7 in., \$1.00 to \$7.50.

I. aurantiaca. A very fine orange red variety. 4 in.-to 7 in., \$1.00 to \$7.50.

JULIUS ROEHR'S COMPANY

Ixora Dixiana. A beautiful orange pink variety. 4 in.-7 in., \$1.00 to \$7.50.

I. Duffii. Flowers deep red. 4 in.-7 in., \$1.00 to \$7.50

I. Westii. Flowers pale rose. 4 in.-7 in., \$1.00 to \$7.50.

I. Williamsii. Reddish salmon. 4 in.-7 in., \$1.00 to \$7.50.

JASMINIUM primulinum. \$1.50 to \$5.00.

MARANTA arundinacea. Leaves green with a whitish central stripe. 5 in., \$1.00 to \$1.50.

M. Bella. 5 in., \$1.25 to \$2.00.

M. insignis. Leaves 15 inches long, lanceolate, olive green margins, under surface purple. 5 in., \$2.00 to \$2.50.

M. Kegelliana. 5 in., \$1.00 to \$2.00.

M. Kerchoviana. Grayish green, with rich chocolate blotches. 5 in., \$1.00 to \$2.00.

LEEAE AMABILIS

LEEAE amabilis. A very choice foliage plant, beautiful silvery foliage. 4 in.-6 in., \$2.50 to \$5.00.

L. amabilis splendens. Similar in growth, but with bright red stems and stripes white and pink. 4 in.-6 in., \$5.00 to \$7.50.

LAPAGERIA alba. A fine greenhouse twining climber; flowers waxy white. 6 in., \$3.00 to \$4.00.

L. rosea. Same habit; flowers fine pink red. 6 in., \$3.00 to \$4.00.

LOBELIA Kathleen Mallard. New, double flower; a splendid and valuable novelty. Small plants. \$3.00 per dozen.

M. Legrelliana. Shiny green and white linear stripes, lower surface whitish green. 5 in., \$1.50 to \$2.00.

M. Lietzei. Lanceolate foliage, shining green upper surface, dark. 5 in., \$1.50 to \$2.00.

M. Lindeni. Deep green blotches yellow green purple under surface. 5 in., \$1.50 to \$2.00.

M. Luciana. 5 in., \$1.50 to \$2.00.

M. Porteana. Bright green, upper surface striped white, under surface purple. 5 in., \$1.50 to \$2.00.

M. princeps. Light green, with broad black green, broken band along middle nerve. 5 in., \$1.50 to \$2.00.

JULIUS ROEHRS COMPANY

Maranta pulchella. Light green color with two series of broad green bars. 5 in., \$1.50 to \$2.00.

M. regalis. Dark olive green ground with pink stripes. 5 in., \$1.50 to \$2.00.

M. rosea lineata. Purple beneath, upper side dark green, midrib red. 5 in., \$1.50 to \$2.00.

M. Sanderiana. Foliage 10-12 inches long, metallic, traversed with white and rose stripes. \$2.00 to \$2.50.

M. smaragdina. A wide spreading variety, lanceolate, silvery green below, dark green above with bands several shades of green. 5 in., \$1.50 to \$2.00.

M. Veitchiana. Very fine variety, dark rich green surface, marked with one or two rows of light yellow irregular spots. 5 in., \$2.00 to \$2.50.

M. vittata. Ovate foliage, foot long, light green, bars yellow white. 5 in., \$1.25 to \$1.50.

M. Wallisii. 5 in., \$1.50 to \$2.00.

M. Williamsii. 5 in., \$1.50 to \$2.00.

We will make a selection of 12 distinct varieties for \$18.00 and \$24.00.

NEPENTHES. Of these we have a splendid collection, consisting of 18 varieties. Prices given according to number of pitchers and value of the variety.

N. Amesiana (N. × Rafflesiana × N. Hookeriana). Pitchers green, prettily marked with red. From 4-in. pans, \$2.50.

N. Balfouriana (N. × Mastersiana × N. × mixta). Pitchers 7-9 inches long; yellowish green marked with dark crimson spots and streaks. From 4-in. pans, \$4.00.

N. Burkei. Cylindrical green pitchers spotted with red, mouth dark red. From 4-in pans, \$2.50.

N. Curtisii. Native of Borneo, pitchers 8 inches long, dull green, spotted purple. From 4-in. pans, \$2.50.

N. Dicksoniana (N. Rafflesiana × N. Veitchii). Pitchers 10 inches long, slightly compressed, light fulvous green, densely speckled with red crimson. From 4-in. pans, \$2.50.

N. Dominii. Stems purplish, pitchers 6 inches long, greenish color. From 4-in. pans, \$2.00.

N. Edinensis (N. Rafflesiana × N. Chelsoni). A very fine hybrid. 4-in. pans, \$2.50.

N. Findlayanum. 4-in pans, \$2.00.

N. gracilis major. Borneo. Inflated at base, small, greenish. 5-in pans, \$2.00.

N. Hookeriana elongata. Sarawak. Pitchers globose, spotted red, having two broad wings. 4-in. pans, from \$2.50.

N. Mastersiana (N. sanguinea × N. Khasiana). Pitchers well colored like sanguinea, blotches of Khasiana or distillatoria. 8-9 inches long. From 4-in. pans, \$2.50.

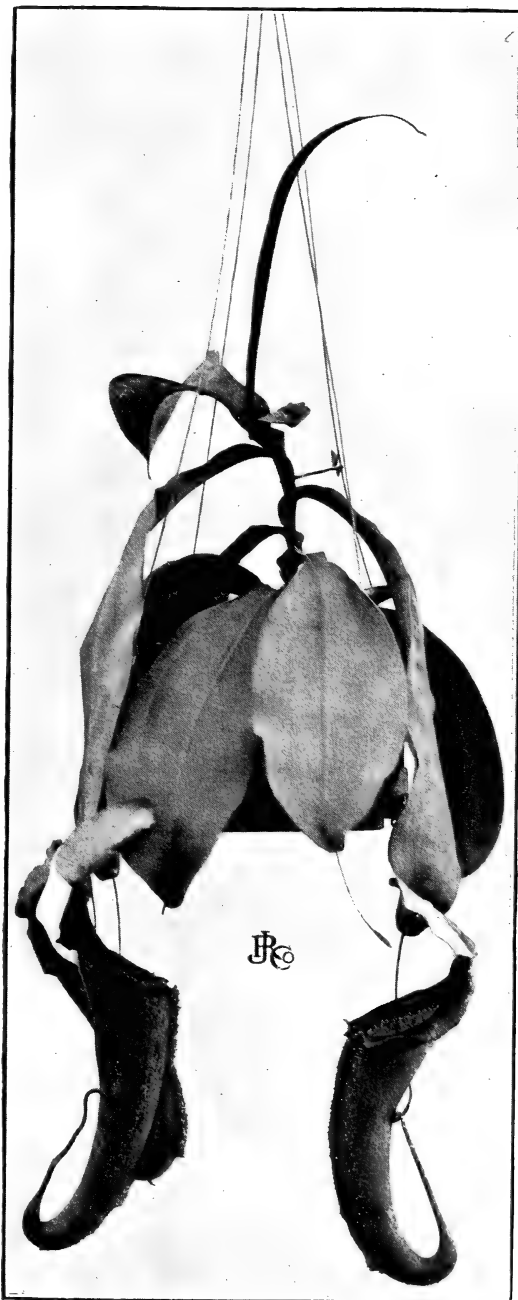

N. mixta (N. Curtisii × N. Northiana). Eight inches long, fringed pale yellowish green, blotched with red. From 4-in. pans, \$2.50.

N. Morganiae (N. Hookeriana × N. phyllamphora). Pitchers 6-8 inches long, blood red in adult age. 4-in. pans, \$2.50.

N. Morganiae superba. Pitchers much larger than the type. 4-in pans, \$4.00.

N. Northiana. Old pitchers 12-16 inches long, 4-5 inches wide; crimson spotted with two dentate fimbriata wings. From 4-in. pans, \$5.00.

RUTHERFORD, N. J.

NEPENTHES DICKSONIANA

N. sanguinea. Pitchers deep blood red in color, 10 inches long. From 4-in. pans, \$5.00.

N. Rafflesiana. Handsome Bornean species, with green yellow pitchers, richly marked brown. 4-in. pans, \$2.50.

JULIUS ROEHRS COMPANY

Nepenthes Tiveyi (N. Veitchii × N. Curtisii superba). Large pitchers, ground color light green, spotted with crimson wings fringed, rich mahogany red. 4-in. pans, \$4.00.

We always have some large specimens in 14-20-inch baskets; price list on application.

NEPHTHYTIS picturata. Stemless plant, variegated and striped white. From 5 in., \$2.00.

PANAX fruticosum Victoriae. Foliage recurving, curled, light green, white variegated. Java. From 4-in. pots, 75c.

P. Veitchii. Leaves 2 feet long, recurved, margined with broad bands of white. From 4-in. pots, \$1.00.

PANICUM variegatum. Very neat grower, for edging benches in greenhouses; almost all white and pink. 3 in.-4 in., 25c., 40c.

PASSIFLORA C. Elliott (The Passion Flower). A white flowered stove climber; sweet scented. From 4-in. pots, \$1.50 to \$3.00.

P. cœrulea grandiflora. A large, dark blue flowering stove climber. From 5-in. pots, \$1.50.

NEPENTHES MIXTA

P. Balfourii. New Caledonia. Deep green with creamy white coloring; round oval foliage. 4-in. pots, 75c.

PANDANUS Baptistii. A smooth dark green with a yellow stripe in center. From 4-in pots, 75 cents.

P. javanicum fol variegatus. Long, narrow drooping foliage, well variegated white, marginal spines white; next best to Veitchii. From 4-in. pots, 75c.

P. pacificus. A very broad, curved foliage variety, dark green, dwarf grower. From 5-in. pots, \$1.25.

P. Sanderi. Similar in growth to Veitchii, but yellow variegated. From 5-in. pots, \$1.00.

P. utilis. Madagascar. Narrow, erect foliage, dark green, spines red. From 4-in. pots, 75c.

P. princeps. Brazil. Another climber, with bright red petals, crown purplish. 5-in. pots, \$2.50.

P. quadrangularis. Tall, strong climber; fragrant flower sepals, white petals; reddish fruit, edible. Granadilla. 5-in. pots, \$1.50 to \$2.00.

P. quadrangularis fol. var. A variegated form. 5 in., \$2.00 to \$2.50.

P. trifasciata. Another form; very interesting. 5 in., \$2.00.

PEPEROMIA arifolia. Stemless plant; dark red. 4 in., 75c. to \$1.00.

P. argyræa. A variegated form. 25c. to \$1.00.

EXOTIC NURSERIES

JULIUS ROEHRS COMPANY

PANDANUS VEITCHII

PHILODENDRON Carderii. Long stem, climbing; ashy gray color. 5 in., \$1.50 to \$2.00.

PHORMIUM tenax. A very fine decorative plant, known as the "New Zealand Flax." Strong plants from \$2.50.

PELLIONIA pulchra. A creeping foliage plant. Blackish foliage. 5 in., \$1.00.

PHRYNIUM Lindeni. A fine foliage plant. 5 in., \$1.00 to \$1.50.

PHYLLOTÆNIUM Lindeni. Tender, variegated foliage plant; arrow shaped leaves, white midrib and veins. 6 in., \$2.50 to \$3.00.

POINSETTIA pulcherrima. A very fine Christmas flowering plant. Bright red. Rooted cuttings ready in Spring. 2½ in.-3 in., 25c.

P. pulcherrima var. flore plena. A variety which bears a double series of bracts. Rooted Spring cuttings. 2½ in.-3 in., 50c.

PHYLLOTÆNIUM LINDENI

SCHISMATOGLOTTIS ROEBELINI

SPHÆROGYNE LATIFOLIA

RUBUS reflexus. A fine greenhouse climber and foliage plant; leaves dark velvety green, stem yellow brown. 5 in.-6 in., \$1.00 to \$1.50.

SANCHEZIA nobilis. Strong, erect, shrubby plant. From \$1.00 each.

SCHISMATOGLOTTIS Roebelini. A splendid variegated, grayish foliage plant; dwarf grower. 5 in.-6 in., \$1.50 to \$2.00.

SCHUBERTIA grandiflora (Physianthus). A fine flowering plant. 6 in., \$2.50 to \$3.00.

SCUTELLARIA Mociniana. Mexico. A tender, shrubby plant; very showy; flowers red, yellow throat. 5 in., \$1.50.

SOLANDRA spectabile. Woody creeper; tropical plant; flowers fragrant, white. 5 in.-6 in., \$2.00 to \$2.50.

SONERILA Hendersoni. A dwarf, tender foliage plant; white on darker ground. \$1.50 to \$3.00.

SPHÆROGYNE latifolia. A very large foliage, succulent plant. Costa Rica. 5 in.-6 in., \$2.00 to \$2.50.

S. Hendersoni argentea. Silvery foliage. \$1.50 to \$3.00.

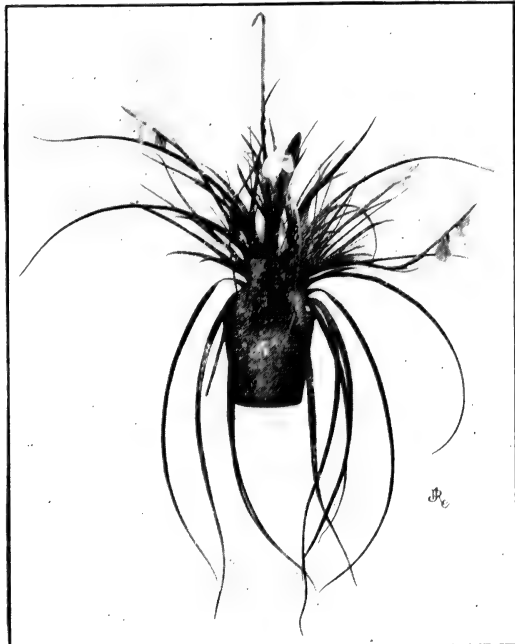

STEPHANOTIS floribunda. A splendid climber for palm and stove houses. Clusters of sweet scented, trumpet shaped, white flowers. 5 in.-6 in., \$1.50 to \$3.00.

STRELITZIA Augusta (Bird of Paradise Flower). Requires plenty of water. Strong grower. White flowers with blue wings. 5 in.-6 in., \$3.00 to \$5.00.

S. Regineæ. Deep purple flower, with orange. Small grower. 5 in.-6 in., \$2.50 to \$3.00.

JULIUS ROEHRS COMPANY

TILLANDSIA LINDENI

STREPTOCARPUS Wendlandii. Flowering plants bearing a rosette of hairy leaves; flowers in spikes, purplish blue. A very beautiful decorative flowering plant. Each, \$1.50.

STENANTHERA Lindenii. A very fine, small foliage plant, in the shape of the Sonerila. \$1.00 to \$2.00.

SAINTPAULIA Ionantha (African Violet). A very fine flowering plant; dwarf grower. 3 in.-4 in., 25c. to 50c.

TABERNÆMONTANA camassa. Flowering plant. Clusters sweet scented blooms. 4 in.-5 in., \$1.00 to \$3.00.

THUNBERGIA laurifolia. Flowers pale blue, white yellow in throat. Greenhouse climber. Plants from \$2.50 to \$5.60.

TILLANDSIA Duvalli (Bromeliaceæ). A very fine flowering plant; flowers dark blue, very attractive. 5 in., \$2.50 to \$5.00.

T. Lindenii (Bromeliaceæ). Lighter blue; rare. 5 in., \$2.50 to \$5.00.

TRADESCANTIA discolor. A useful decorating plant. From 25c. to 50c.

T. fuscata. Brown, hairy foliage. From 25c. to 50 cents.

VRIESIA splendens (Bromeliaceæ). A very strong growing variety; bright green, with dark brown transverse bands; flowers yellowish white, 5 in.-6 in., \$1.00 to \$2.50.

ZYOPHYLLA latifolia. Resembling in nature the Aralia; very attractive. 6 in., \$3.00.

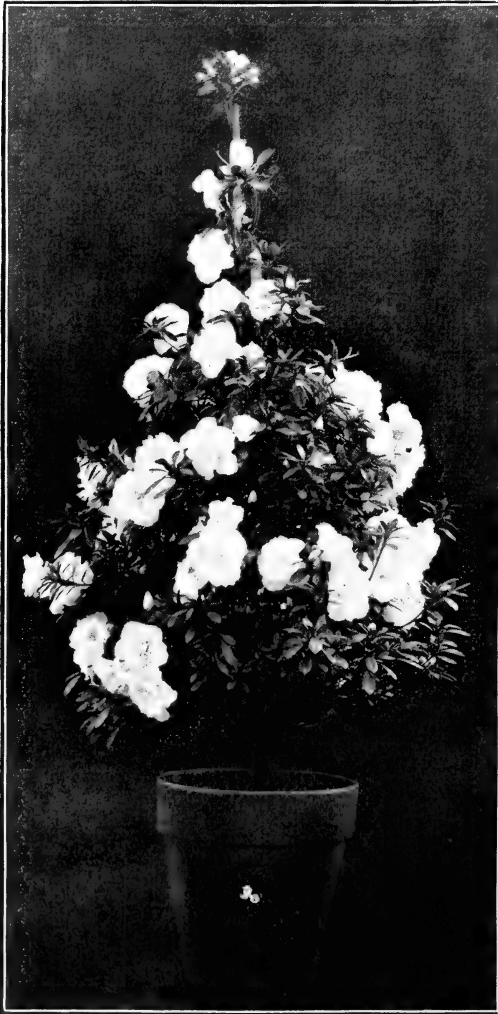

PART OF STOVE RANGE SHOWING PHŒNIX ROEBELINI, CARYOTA GRAMINIFOLIA, LIVISTONA ROTUNDIFOLIA, ETC.

AZALEA

We cultivate large quantities of new and old varieties. We also keep a fine line of specimens and pyramids. Our collection has again been improved with all the newest varieties. Those marked with an asterisk (*) are double-flowered. Orders for these must be placed.

PYRAMID AZALEA

STANDARD SHAPE

- ***Bernhardt Andreas.** Rosy purple.
- Bernhardt Andreas alba.** Superb white.
- Charles Enke.** Rosy salmon, margined white.
- ***Deutsche Perle.** Pure white.
- ***Doctor Moore.** Intense rose, white violet reflection.
- ***Emperor of Brazil.** Flesh color, white border.
- Firefly.** Fine red.

- General Post Stephan.** Lively amaranth, spotted dark.
 - Haerenseana** (Easter Lady). Very soft pink, extra fine. (New).
 - ***Hermione.** Double, deep rose; late.
 - ***J. T. D. Llewellyn.** Flesh color, border white, dark blotch.
 - ***Mme. Jos. Vervane.** Finest double pink, white margin.
 - ***Niobe.** Ivory white, large flower.
 - ***Oberst von Kutzinsky.** Most brilliant scarlet.
 - ***Pauline Mardner.** Mildest rose, very early.
 - ***Paul Weber.** Very double, fine pink, white bordered.
 - ***President Oswald de Kerchove.** Semi-double incarnate, white border.
 - Professor Wolters.** Beautiful rose, white edge.
 - ***Sakantula.** Very thick, pure white, best.
 - ***Schryveriana.** (New.) Very double, pink and white, dark center.
 - ***Sigismund Rucker.** Lilac rose, white border, bright crimson spots.
 - ***Simon Mardner.** Intense velvet rose, very early.
 - ***Talisman.** Large double, vermilion flower, white margin, purple spots.
 - ***Van der Cruyssen.** Glossy rose.
 - ***Vervaneana.** Clear pink, white margin; early.
- From \$10.00 per dozen; all sizes.

PYRAMID SHAPE

- Bernhardt Andreas alba.** (See above.)
 - ***Deutsche Perle.** (See above.)
 - ***Doctor Moore.** (See above.)
 - Duc de Nassau.**
 - ***Imperatrice des Indes.** Salmon, white border; fine variety.
 - J. B. Varonne.**
 - ***Memory Louis Van Houtte.** Intense rose, carmine blotch; early.
 - ***Mme. C. V. Langhehove.** Snowy white, edge salmon and carmine yellow green blotched.
 - ***Mme. Van der Cruyssen.** Glossy, rose tinted amaranth.
 - ***Mme. Paul de Schryver.** Camellia-like flowers, lively violet rose.
 - ***Othello.** Very double orange red flower.
 - President Oswald de Kerchove.**
 - ***Princess Louise.** Bordered variety.
 - Professor Wolters.** (See above.)
 - ***Raphael.** Pure white.
 - ***Simon Mardner.** (See above.)
 - ***Souvenir du Prince Albert.** Peach rose, pure white margined.
 - Vervaneana.** (See above.)
- Specimens, each \$6.00; one size only, per doz., \$70.00.

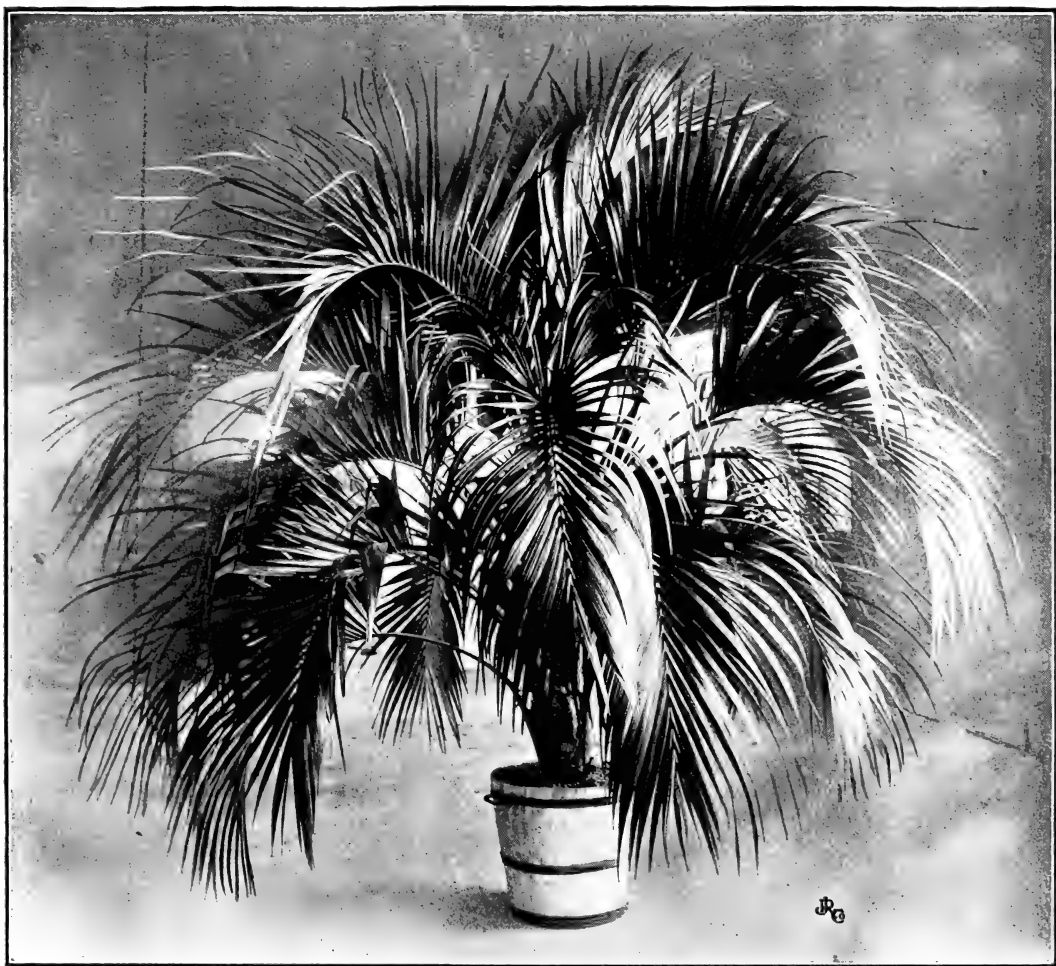

AZALEA AMENA

We also have in stock nice round, globular shaped specimens of *Azalea amena* in tubs; small specimens, 3 feet diameter, \$30.00; 5 feet diameter, \$100.00. These sizes are very scarce.

JAPANESE AZALEA

We keep a collection of specimen Japanese Azaleas, from 6 feet to 12 feet high. Prices on application.

EXOTIC NURSERIES

SPECIMEN KENTIA BELMOREANA—See page 38

PALMS, CYCLANTHUS AND CYCADS

This section includes the best and most decorative plants of the entire vegetable kingdom. While in their native habitat they attain an immense height and live for many years. Large specimens which can always be seen at our Nurseries are used for stocking palm houses, drawing rooms, ballrooms, etc. A special list of these will be sent on application.

We are always glad to give estimates for stocking greenhouses and palm houses, etc., and solicit correspondence from all who contemplate building new glass and enriching their collection.

ARECA BAURI. Norfolk Island Palm. Fine for decoration, from \$2.50.

A. Ilsemanie. A spineless Palm; an elegant decorative plant. Young leaves, very dark red, becoming green; fronds slender. Prices on application.

A. Verschaffeltii (× Vide Hyophorbe Verschaffeltii). A Mauritius variety. 5 in.-7 in., \$5.00 to \$15.00.

A. lutescens (Hyophorbe indica). A useful popular Palm, fine foliage. 3 in.-4 in., 25c. to 35c.; 5 in.-6 in., \$1.00 to \$1.50; 7 in.-10 in., \$3.00 to \$15.00.

ARENCA Englerii. Sugar Palm of India. New and rare species. Price given on application.

JULIUS ROEHRS COMPANY

BENTINCKIA nicobarica.

Very distinct leaves, ample and elegant, fine primrose green shade of color. Native of the Nicobar Islands. Plants from \$5.00 to \$15.00.

CALAMUS ciliaris.

Stem slender, climbing by means of hooked spines; leaves numerous and hairy. Java. Small plants from \$3.50 to \$10.00.

CARLUDOVICA humilis.

From \$3.00 to \$15.00.

CARYOTA mitis.

Burmese variety. A good decorative Palm. 5 in.-6 in., \$2.50 to \$4.00; large, from \$7.50 to \$15.00.

Caryota Rumphii.

Malayan variety. Collection plant; strong grower. 5 in.-6 in., \$3.50 to \$7.50.

C. sobolifera.

Very similar to the Caryota mitis. 5 in.-6 in., \$2.50 to \$5.00.

C. urens (Fishtail Palm).

Wine Palm. A much heavier and strong variety. 5 in.-6 in., \$1.00 to \$1.50.

CHAMÆDOREA graminifolia.

Mountain Palm. Spineless. Erect foliage. Very interesting collection plant. 6 in.-7 in., \$7.50 to \$10.00.

CHAMÆROPS excelsa (Vide

Trachycarpus excelsus). Large specimens only. Outdoor decoration. Price on application.

CARLUDOVICA HUMILIS

BENTINCKIA NICOBARICA

COCOS Bonnetii. A very hardy and serviceable Palm of a bluish green color. A splendid Palm for lawn decorations. We always have in Spring a few nice specimens established in tubs from \$30.00 to \$50.00.

C. Datil. Narrow, stiff and rigid foliage. Tropical American variety. 5 in.-6 in., \$2.00 to \$5.00.

C. flexuosa. A very graceful decorative Palm. Specimens, 8 in.-10 in., \$17.00 to \$25.00.

C. insignis (Syn. Glaziova insignis). Narrow, lanceolate foliage, silvery glaucous beneath. 6 in., \$3.50 to \$5.00.

C. nucifera (Coco Palm). An interesting variety. 8 in., \$5.00 to \$7.50.

C. Weddelliana (Glaziova elegantissima). The most useful and elegant table and decorating variety. This is probably the most elegant Palm ever introduced, and one that should be in every collection. Brazil. All sizes, from \$1.00 to \$15.00.

C. Romanzoffiana. Lower leaves pendant, upper spreading incurved. \$15.00 to \$25.00.

CYCLANTHUS bipartitus. A very fine and distinct Cyclanthus from Bogota. Scarce. \$3.00 to \$10.00.

EXOTIC NURSERIES

JULIUS ROEHRS COMPANY

CYRTOSTACHYS Renda (Var. *Duvivieri*). A choice Palm, delicate gray beneath, petioles very dark maroon red. Prices on application.

DÆMONOROPS intermedius (Calamus). Multicolor. A spined Palm, strong grower, blackish stem, rough green surface; fine foliage. From \$5.00 to \$10.00.

D. cinnamomeous. Very similar to above named species; much smaller grower. 4 in.-5 in.-6 in., \$2.50 to \$7.50.

GEONOMA gracilis. Slender, spineless Palm; by far one of the most elegant growers. Fine foliage, collection plant. 6 in., \$3.00 to \$5.00.

G. imperialis. Another splendid variety, but not as narrow in foliage as *Gracilis*. 6 in., \$3.50 to \$5.00.

G. Seemanii. A choice collection Palm. The young leaves are of a beautiful red color. Central America. 6 in., \$7.50 to \$10.00.

KENTIA Belmoreana. The finest and most useful of all Palms. Its graceful habit and dark green foliage make it very decorative for all purposes. We always have on hand an immense stock of these in all sizes. Single plants as follows:

In. pots	Ins. high	Leaves	
2	10-12	3	\$0 15
3	14-15	3-4	20
4	18	4	25
4	22	5	50

11 "	6-7	66	15 00
11 "	6-7	7 ft.	25 00

N. B.—We wish to draw your special attention to our large Palms for stocking palm houses, conservatories, Winter gardens, etc. Specimens up to 20 feet high.

CYCLANTHUS BIPARTITUS

JULIUS ROEHRS COMPANY

PHŒNIX ROEBELINI

See page 41

Kentia Dummontii. A very graceful narrow leaved variety; scarce. Dark green foliage and somewhat shorter than above named varieties. Specimens in 10-in. tubs, \$50.00.

K. Forsteriana compacta nana. A very dwarf variety; fronds 12 in., fully developed, dark green; 16 in. high; scarce. 7-in. pot. Price on application.

K. Kirsteriana. Leaves very slender, dark green, arching, ascending, widely pinnated. Native of New Zealand. Specimens only, in 8 in.-10 in. pots, \$25.00.

K. McArthurii. Another fine collection Palm. 7 in.-8 in. pots, \$10.00 to \$12.00.

K. Lindeni. A very graceful Palm; narrow foliage. 7-in. pot, \$7.50; 10-in. pot, \$25.00.

LATANIA borbonica (Livistona chinensis). The fan leaved Palm; 5-in. pot, \$1.00; 7-in. pot, \$2.50. Of this particular variety we also carry a collection of specimen plants for decorating lawns, ball rooms, piazza, tropical gardens, etc., ranging in price from \$30.00 to \$50.00.

LICUALA grandis. A fine showy Palm, erect and spreading, curved spines along the margins. 5-in., \$3.50; 6-in., \$5.00; specimens, 10-12 in., \$25.00.

L. horrida. Not quite as showy, with brownish hooked spines. 6-in., \$5.00.

LINOSPADIX Petrickiana. A handsome pinnate leaved Palm of very compact growth, well furnished; rare. 6-in., \$15.00.

LIVISTONIA rotundifolia. Very useful stove, dwarf Palm with recurved spines. 4 in.-5 in.-6 in., 75c., \$1.50, \$2.00.

PHENICOPHORUM Sechellarum (Steven-sonia grandifolius). The celebrated Phœnix Palm, also called the "Thief Palm." A very spiny variety, black, foliage dark green-maroon, 5 in.-6 in., \$3.00 to \$5.00.

PINANGA Kuhlii. A fine attractive Palm; fast grower. \$5.00 to \$15.00.

PRITCHARDIA Martiana. Spineless Palm from the South Pacific. Leaves glabrous and glaucous below; small plants. 4 in., \$5.00.

KENTIA LINDENI
See page 40

PHENIX canariensis. A most useful Palm for outdoor decorations; half hardy, slender and graceful foliage. 6 in., \$2.50 to \$5.00; 7 in.-8 in., \$7.50 to \$10.00. We make a specialty of this useful and valuable Palm. Nothing can equal same in hardiness and strength, and endure as much wear and tear for outside decorating purposes. Specimens in all sizes from \$20.00 to \$50.00.

P. Roebelini. By far the most graceful of all Palms; very fine, narrow foliage, pendulent; dwarf grower. 5 in., \$2.00 to \$2.50; 6 in., \$4.00 to \$5.00; 8 in., \$7.50 to \$10.00.

P. reclinata. Stem short; foliage gracefully pendulent, narrow and fronds long; light green color. 8 in. \$5.00 to \$7.50.

P. rupicola. Stem slender and naked, bright green foliage. 8 in. \$5.00 to \$7.50.

RAVENEA Hildebrandtii. An excellent dwarf Palm. It deserves a place in every palm house; one of the most valuable among recent introductions. 6 in., \$15.00.

RHAPIS humilis. A fine Palm. Most useful for decorating and grouping. Native of China and Japan. 7 in.-8 in., \$7.50 to \$10.00.

R. flabelliformis. Broader leaves than the former; stronger grower. 7 in.-8 in., \$7.50 to \$10.00.

R. Khivanowski. A very fast grower, similar to Humilis, but more compact. \$7.50 to \$10.00.

CYCADS

This particular variety of plant is very extensively used for decorating ballrooms, halls, or for sub-tropical gardening in the Summer, as well as for conservatories and greenhouses.

CYCAS revoluta. A fine decorative plant for all purposes. Commonly called the Sago Palm. From \$2.50 to \$20.00.

C. circinalis. Very similar, but finer and longer. foliage; however, same is much scarcer. From \$7.50 to \$25.00.

JULIUS ROEHRS COMPANY

FERNS

ADIANTUM Farleyense. A very useful, light green foliage variety; fronds often reaching 15-24 inches long. 3-in., 50c.; 4-in., 75c.; 5-in., \$1.00; 6-in., \$2.00. In Fall, 7-in. plants, \$2.50 to \$3.00.

ALSOPHILA australis. A tropical Tree Fern. Specimens from \$10.00 to \$25.00.

ANGIOPTERIS evecta. Sometimes called the Water Fern. A greenhouse variety; very decorative. 7 in.-8 in. pans, \$4.00 to \$7.50.

ASPLENIUM nidus avis (The Bird's Nest Fern). From \$1.00 to \$2.00.

A. Belangeri. From \$1.00 to \$2.00.

A. nobilis. From \$1.50 to \$2.00.

A. viviparum. From \$1.00 to \$2.00.

CIBOTIUM princeps. Some very fine specimens. From \$5.00 to \$7.50.

C. Schiedeii. A very ornamental house Fern. \$2.50 to \$10.00.

DICKSONIA antarctica. The Australian Tree Fern. From time to time we receive importations of dried stems; if you are interested, we will be very glad to let you know in due time,

ANGIOPTERIS EVECTA

upon arrival. Established plants: 15-18 fronds, \$25.00 to \$30.00; 18-28 fronds, \$35.00 to \$45.00.
DAVALLIA bullata. Fern balls, for palm-house decorations. From 75c. to \$1.50.

D. fijiensis. A very fine collection Fern. Small plants, from \$1.00 to \$2.00; specimens, price on application.

D. MOOREANE. A beautiful variety of this family of stove plants. We always have on hand a few large specimens at \$25.00 to \$30.00.

GONOPHLEBIUM subauriculatum. A splendid conservatory Fern, specially adapted for hanging and grown in baskets, giving fronds 5-6 feet long. 6 in. \$2.50 to \$3.00.

LOMARIA gibba. Small plants, from \$1.00 to \$1.50.

L. L'Herminieri. A fine variety having a red center. From \$1.50 to \$3.00.

NEPHROLEPIS Duffii. A splendid Fern dish variety; narrow foliage. \$1.50 to \$3.00.

N. bostoniensis. The Boston Fern. All sizes. 50c. to \$3.00.

N. Barrowsii. A splendid novelty. All sizes. 75c. to \$3.00.

N. Pierstoni. A very fine variety; very popular. From 50c. to \$2.50.

N. podocarpus. A choice variety. From \$1.50 to \$2.00.

N. Whitmani. A splendid addition to the collection of recent introductions. Fine foliage. From 75c. to \$3.00.

N. Scottii. A fine, dwarf, compact grower. 75c. to \$3.00.

PLATYCERIUM ALCICORNE

EXOTIC NURSERIES

JULIUS ROEHRS COMPANY

CIBOTIUM SCHIEDEI

PLATYCERIUM (Stag-Horn Fern). Of these we claim to have the finest collection in the country, in the following varieties and in all sizes:

P. var. alcornae. Barren fronds. Rounded. The unforked portion erect under surface covered with thin cottony down. Temperate Australia. \$1.00 to \$15.00.

P. var. biforme. Differs from all other varieties; fertile fronds, 3-5 feet long, forked, pale green. From \$2.50 to \$25.00.

P. var. Ethiopicum. The fronds furnished with small hairs, similar to var. Grande. Java. From \$2.00 to \$10.00.

P. var. grande. Barren fronds, similar to Alcornae, pale green. North Australia. From \$2.00 to \$15.00.

P. var. Hillii. Barren fronds, like Alcornae. Queensland. From \$2.50 to \$10.00.

P. var. Hillii major. Similar to above, but much larger. From \$3.00 to \$15.00.

P. par. pumila. A very dwarf, stumpy grower. From \$2.00 to \$10.00.

POLYPODIUM Lowianum. 7 in. From \$5.00 to \$7.50.

P. Schroederii. 6 in. From \$5.00.

PTERIS Grevilliana argentea. A very fine variegated species. \$1.50 to \$2.00.

SELAGINELLA caesia arborea. A splendid climbing variety; foliage bluish, making a splendid effect. From 50c. to \$5.00.

S. Watsoni. A splendid variegated form. From 25c. to 50c.

SMALL FERNS.

Any time we will be glad to furnish small ferns in 2½-3 inch pots, for fern dishes and rockery, including such varieties as Cyrtomium falcatum, Pteris cristata, P. alba lineata, tremula, Adiantum cuneatum, etc. At \$7.50 to \$15.00 per 100.

N. B.—We always have on hand a splendid collection of specimen Ferns. A special list of these will be sent on application.

POLYPODIUM LOWIANUM

Flowering Shrubs and Roots for Forcing

Being large growers and forcers for the New York market, we are enabled to furnish the very best stock only.

AZALEA mollis. Fine bush plants, from \$6.00, \$9.00, \$12.00 to \$24.00 per dozen. Fine standards, from 75c., \$1.00 to \$5.00 each.

CRATÆGUS. In varieties. \$12.00 per dozen.

CYTISUS Laburnum. \$12.00 per dozen.

HYDRANGEA paniculata. Bush plants. From \$3.00 to \$5.00 per dozen.

H. paniculata. Standards. \$9.00 per dozen.

LILACS. One of our big specialties.

L. Casimer-Perier. Fine double. For 8-in. in Fall, pot grown, \$24.00 per dozen.

L. Charles X. Red. For 6-in. in Fall, pot grown, \$12.00 per dozen.

L. Charles X. Red. For 8-in. in Fall, pot grown, \$30.00 per dozen.

L. Louis Spaeth. Very best dark purple. For 8-in. in Fall, pot grown, \$36.00 per dozen.

L. Marie Legraye. White, in Fall, pot grown, \$24.00 to \$30.00 per dozen.

L. Marie Legraye. Bushes. In Fall, \$24.00 per dozen.

L. Marley. White. The earliest forcer; bushes from open ground. \$12.00 to \$15.00 per dozen.

LILY OF THE VALLEY (*Convallaria*). Roehrs' special New York wonder. We force 1,500,000 a year. Fresh crop in December and Spring, \$18.00 per 1000; cold storage until December, \$20.00 per 1000.

MALUS Schneideckeri and floribunda. From \$12.00 per 10.

PRUNUS sinensis. Bushes. From \$12.00 per 10.

P. triloba. Bushes. From \$12.00 per 10.

P. triloba. Standards. From \$24.00 per 10.

WISTARIA sinensis alba and cœrulea. From \$1.50 to \$5.00 each.

Imported Fruit Trees for Planting in Orchard Houses and Pot Growing

We are able to furnish a fine lot of pot-grown fruit trees, such as peaches, pears, apples, etc., standard, half standard, pyramid and bush form.

Grapes

For growing under glass, in the very best varieties. On account of the reliability of the firm from whom the above trees are always imported to order, we personally recommend them and guarantee satisfaction. State your wants, and we will give you a quotation f. o. b. New York City.

For Planting Out

Peaches, nectarines, apricots, plums, cherries; fan-trained trees, low standard shaped, half standard, stem 2 to 3 feet; high standard, stem 5 to 6 feet.

We can also offer pear and apple trees for growing on espaliers, walls and edgings for borders.

Apples, pears, plums and cherries may also be obtained standard, pyramid and bush form.

N. B.—A list of all the leading varieties will be mailed to all those interested. Early orders are solicited.

ORANGE TREES

We have on hand a fine collection of *Specimen Orange Trees* up to 14 feet high. Special price list on application

KOSTER'S BLUE SPRUCE—We have one of the finest collections in the country

NURSERY DEPARTMENT

Owing to the ever increasing demand for Specimen Evergreens, Trees and Shrubs, we beg to invite our customers who intend to beautify their grounds, however large or small, to call at our Nurseries, where they will find a fine selection of large subjects. We have recently bought twenty-five more acres of land for this special purpose, where we intend to go into the growing of such a specialty on a larger scale. We will admit that the number of varieties is by no means complete, but what there is to be seen is reliable, having been frequently transplanted, therefore lifting with a good ball of fibrous roots.

EVERGREENS AND CONIFERS

ABIES

ABIES Alcockiana. A beautiful evergreen, with the underside silvery blue. Of these we have specimens 7 to 9 feet high.

A. concolor. The Rocky Mountain Spruce.

A. excelsa. Norway Spruce.

A. Fraseri. Similar to the Balsam Fir, with richer and darker foliage.

A. Nordmanniana. One of the most decorative of the group, with its broad foliage, dark green, shining with a silvery under-surface.

A. Pinsapo. The Spanish Silver Fir, with its handsome silvery green leaves, etc.

A. Remonti. One of the hardiest of all the Cedar family, which, however, resembles the variety Excelsa very much, but dwarfer.

CEDRUS

CEDRUS atlantica glauca (Mt. Atlas Silver Cedar). A handsome tree of a beautiful silver blue foliage.

RUTHERFORD, N. J.

JUNIPERUS

The Junipers are very desirable, free growing evergreens, for making up beds, as most of them are dwarf growers. We have on hand a nice collection in the following varieties:

JUNIPERUS chinensis (Chinese Juniper). Dark green foliage.

J. canadensis aurea. The Golden Juniper; a low spreading bush; splendid for carpet bedding.

J. chinensis argentea. Fine variegated foliage.

J. japonica aurea. Very choice golden tinted var.

J. Sabina. Very valuable for rock work; branches slender and spready.

J. virginiana var. glauca (Virginian Blue Cedar). One of the handsomest of all the family. This particular variety ought to find a place in every collection.

ABIES ALCOCKIANA See Page 45

RETINISPORAS

Of the Retinisporas (*Chamaecyparis*) we have a fine collection, best adapted for making up groups, but in large specimens. No evergreen will make a finer show when planted, isolated, on lawns. They are very interesting, grow freely and transplant readily. We mention a few of very best varieties:

RETINISPORA filifera. Gracefully pendulous branches.

R. filifera aurea. Similar in growth to the former variety, but having a yellow foliage.

R. obtusa. A free growing evergreen, with bright green foliage.

R. obtusa nana aurea. A perfect gem among the evergreens, which is in great demand; dwarf in habit, having a rich golden foliage.

R. pisifera. Very feathery dark green foliage.

R. pisifera aurea. A pyramid growing variety with yellow foliage.

R. plumosa. A very compact grower with a plume-like foliage, of which we have some elegant specimens.

R. plumosa argentea. Beautiful silvery foliage

R. plumosa aurea. Golden yellow foliage.

R. squarrosa Veitchii. One of the most beautiful of the group, having light bluish green foliage.

Specimen plants of the above varieties may be viewed at our Nurseries any time in Spring until Fall, as they are at their best during that period, which we quote at from \$5.00 to \$30.00 each.

PICEAS

The Spruces are generally used for planting in woods and also isolated on large estates. We enumerate a few of the most useful varieties:

PICEA alba (White Spruce). A very hardy and decorative species, of dense habit, with glauca foliage.

P. alba aurea. The glory of Spruces; a rare and ornamental variety, having a fine blue green foliage, brightened with golden tips.

P. excelsa compacta. Very dense and distinct Spruce, light green foliage.

P. orientalis (Oriental Spruce). Green shiny foliage, a very hardy tree from Asia Minor and Siberia, therefore very appropriate for planting in position exposed to high winds, etc.

P. pendula (Weeping Silver Fir). A distinct variety of weeping habit; very slow grower.

P. pungens. The well known Colorado Blue Spruce.

P. pungens Kosterii. A great improvement over the common Colorado Blue Spruce. Our stock of these is grafted from the finest specimens obtainable of Koster's "True Blue."

We claim to have one of the finest collections of the Koster Blue Spruce in the country, ranging in all sizes from 3 ft. to 8 ft., they having been frequently and carefully transplanted. We guarantee a good ball of roots, which is most essential in shipping and planting.

ABIES CONCOLOR—See page 45

EXOTIC NURSERIES

JULIUS ROEHRS COMPANY

PINUS

PINUS austriaca. One of the best evergreens for seashore planting; of vigorous growth.

P. Mughus (The dwarf Mountain Pine). Very desirable where a low, dense, spready growth is required.

P. Strobus. One of the most valuable and stately of all our native evergreens.

P. sylvestris. The hardiest of all the Pines called the "Scotch Pine."

SCIADOPITYS

SCIADOPITYS verticillata (Umbrella Pine). A very rare Japanese evergreen, of conical form, and very slow grower.

TAXUS

TAXUS baccata (The English Yew). A densely spready bush of dark green foliage; one of the best evergreens for topiary work.

T. baccata aurea. Very similar growth to preceding one, but in Summer gives a very fine golden foliage; one of the finest of the whole family, specially adapted for miniature gardens.

THUYAS

The Thuyas are a family of ornamental evergreens; trees of narrow pyramidal habit. They include:

THUYA Hoveyi. A fine, compact bush, of a yellowish green color.

T. Lobbi. A brilliant dark green conifer, hardy and vigorous.

T. Lobbi aurea. Golden foliage.

T. occidentalis. The common American Arbor vitae, commonly called White Cedar, much used for ornamental hedges; very hardy. Of these we have some splendid specimens 8 to 10 feet high.

T. occidentalis Ellwangeriana. A low, broad, pyramidal evergreen.

T. occidentalis Wareana. The Siberian variety, splendidly adapted for hedge work.

T. occidentalis Vervæneana. Vervæne's variegated Arbor vitae; very distinct.

Of all the mentioned varieties, we keep a fine line of specimens.

THUYOPSIS

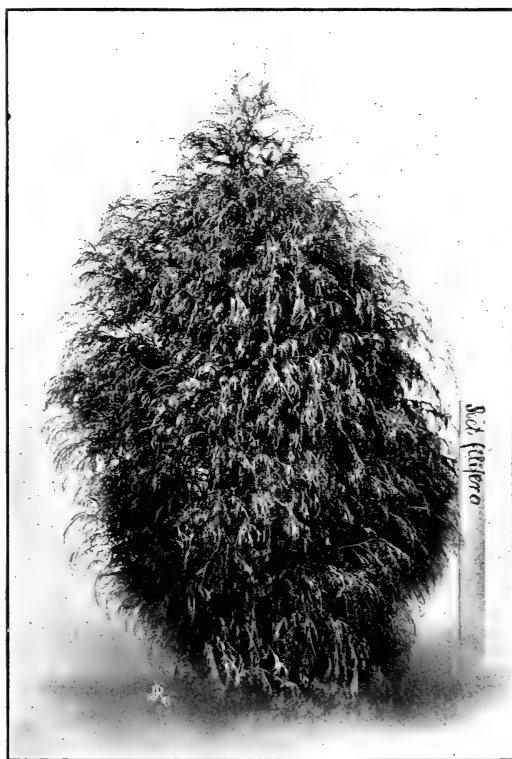

THUYOPSIS dolabrata. A peculiar low growing bush, with green foliage and very interesting.

T. Standishi. A pyramid oak grower more pendulous than the former one.

TSUGAS

TSUGA canadensis pendula. A rare and beautiful variety of weeping habit, resembling a Hemlock.

We also have on hand a fine lot of these specimens, established in tubs, for making an effect where planting cannot be executed. These may also be used for decorating piazzas, formal gardens, etc.

RETINISPORA FILIFERA—See page 46

IF YOU intend to do any planting and wish to obtain some fine specimen evergreens to make an immediate effect, we cannot urge you too strongly to give us a call. We will be very glad to show you our stock; if unable to do so we will call and make such suggestions as your necessities demand.

JULIUS ROEHRS COMPANY

FLOWERING SHRUBS

These indispensable hardy plants are mostly planted to make an immediate show. The Rhododendrons, especially, when planted in beds, make a beautiful display in early Summer; we make a specialty of these, importing and growing them in quantities, handling none but hardy varieties. We enumerate below some of the very best, giving as nearly as possible their description as to color.

HYBRID RHODODENDRONS.

Alarm. White center with band of brightest scarlet; rather small flower.

Album elegans. A very good white, fine form.

Album grandiflorum. A fine white.

Blandyanum. Beautiful rosy crimson, fine form, free bloomer.

Caractacus. Purplish crimson.

Everestianum. Rosy lilac, large truss of blooms; free bloomer.

Kate Waterer. Clear rosy crimson, with large yellow mark.

Lady E. Cathcart. Bright clear rose, with crimson spots; fine.

HARDY AZALEAS

Besides the Rhododendrons, we must mention the hardy Azaleas, which are planted freely, owing to their free flowering habit, such as—

AZALEA amoena. An evergreen flowering shrub, giving a profusion of magenta flowers about one inch in diameter; it has no superior. We also have these in all sizes from \$1.50, and specimens \$100.00 each.

A. sinensis. The Chinese Azalea. Planted in sheltered position, it makes a splendid showing of flowers—yellow, orange, carmine, red—and may be had in various sizes and prices from 75c. to \$10.00 each.

RHODODENDRONS GROWING UNDER NATURAL CONDITIONS

Old Port. Porty crimson.

President Lincoln. Lilac rose.

Purpureum elegans. Good purple.

We have these in all sizes, from \$1.00 to \$25.00 each.

We also have some splendid large specimens, 6 to 7 feet high, 8 to 9 feet wide, which we can furnish at from \$100.00 each up.

This collection consists of 10 plants in as many varieties.

RHODODENDRON MAXIMUM

For large plantations we recommend the **Rhododendron maximum** (The Great Laurel). We will make a special quotation on your wants per car f. o. b. your R. R. station.

KALMIA latifolia. Commonly called the Mountain Laurel. A very ornamental and valuable evergreen shrub; flowers white to rose; generally used for planting among Rhododendron beds.

We always have on hand a fine lot of specimen Hydrangeas in tubs, and also field grown. These most beautiful showy flowering plants are best adapted for planting singly on lawns, or for decorating piazzas and formal gardens. We make a specialty of these and intending purchasers are earnestly requested to write us and state their wants.

We have on hand a splendid collection of hybrid Roses in bush and standard form.

We would like to hear from anyone contemplating planting out Lily of the Valley; we are enabled to supply same in large quantities.
